

## APPENDIX 1: Agenda from 5/2 Scientific Workshop Convened by INR

8:00-8:30 a.m.	<b>Continental Breakfast</b>
8:30-8:40	<b>Overview of the day and Charge to participants</b> Gail Achterman, Institute for Natural Resources
8:40-8:55	<b>Introduction: Framing from the scientific standpoint</b> Giles Lesser, U.S. Geological Survey
8:55-9:15	<b>Introduction: Framing from the policy standpoint</b> Steve Greenwood, Nearshore Project Group facilitator
9:15-9:20	<b>Identification of questions associated with the introductory presentations</b>
9:20 a.m.-12:35 p.m.	<b>White paper presentations</b> Facilitated by Gail Achterman
9:20-9:35	Sediment migration and wave and current patterns Dan Cox, Oregon State University
9:35-9:45	Overview of wave amplification models Tuba Ozkan-Haller, Oregon State University
9:45-10:15	Q&A / Discussion
10:15-10:30	Break
10:30-10:45	Dungeness crab Walter Pearson, Pacific Northwest National Laboratory
10:45-10:55	Q&A / Discussion
10:55-11:10	Benthic infauna Gary Braun, TetraTech EC, Inc.
11:10-11:20	Q&A / Discussion
11:20-11:35	Marine fishes William Percy, Oregon State University
11:35-11:45	Q&A / Discussion
11:45-12:00	Seabirds Craig Strong, Crescent Coastal Research: Seabirds
12:00-12:10	Q&A / Discussion
12:10-12:25	Marine mammals Jan Hodder, Oregon Institute of Marine Biology
12:25-12:35	Q&A / Discussion

12:35-1:15 p.m.	<b>Lunch</b>
1:15-1:30	<b>Recap of morning session and charge to the break-out groups</b> Gail Achterman
1:30-3:15	<b>Break-out groups</b> <ul style="list-style-type: none"> <li>o Sediment migration and wave and current patterns</li> <li>o Dungeness crab</li> <li>o Benthic infauna</li> <li>o Marine fishes</li> <li>o Seabirds</li> <li>o Marine mammals</li> </ul>
3:15-3:30	<b>Break</b>
3:30-4:45	<b>Plenary session</b> Reports back to group and Discussion of key messages and common themes regarding priority questions, research and monitoring needs, and indicators for impacts assessment Facilitated by Gail Achterman
4:45-5:00	<b>Wrap Up</b> Gail Achterman
