# INTRODUCTION

---

Extinction is a natural process. Today, however, plant and animal species are disappearing world-wide at an accelerated pace. Based on current trends, half of the species on earth will be extinct within the next 100 years. The major cause of this phenomenon is large-scale destruction of native habitats, which has increased since European settlement began in the mid 1800's - in Oregon and throughout the New World.

Once lost, a species can never be recovered, and there is no way of knowing how useful it may have been. We do know that human beings and many of their industries depend on plant and animal products. About 50% of all pharmaceuticals have a natural component as an active ingredient, yet less than one percent of the world's species have been chemically analyzed and tested. Many invertebrates and plants contain undescribed and highly functional compounds. *Limnanthes floccosa* subsp. *grandiflora*, or wooly meadow-foam, a rare plant that grows in southwest Oregon, has been recently found to produce a hybrid with the more common member of the genus, *Limnanthes alba*. This hybrid grows well in the poorly drained soils of the Willamette Valley and produces a valuable oil used for soaps, plastic and rubber production. In addition, the new hybrid meadow-foam does not require the field burning necessary for other crops. This species, and many other Oregon natives, will be lost without intervention. The purpose of this book is to provide land managers, owners and interested parties with a list of those species in Oregon which are in greatest jeopardy.

## Oregon State Endangered Species Programs

In 1987, the Oregon Legislature passed an Endangered Species Act which gave the Oregon Department of Agriculture responsibility and jurisdiction over threatened and endangered plants, and reaffirmed the Oregon Department of Fish and Wildlife's responsibility for threatened and endangered animals. Both of these agencies have entered into cooperative (Section 6) agreements with the United States Fish and Wildlife Service for the purpose of carrying out research and conservation programs for animal and plant species under the auspices of the federal Endangered Species Act. The Oregon Natural Heritage Program (ONHP) is in the process of obtaining a similar agreement for invertebrates. More information on the state endangered species programs can be found at the beginning of the animal and plant sections of this book.

## The Oregon Natural Heritage Program (ONHP)

ONHP (formerly the Oregon Natural Heritage Data Base) maintains a comprehensive manual and computerized data base on Oregon's rare, threatened and endangered plants, animals and ecosystems. Site-specific information is available at the Program office. Support for this system is based on a cooperative effort between The Nature Conservancy and the Oregon Division of State Lands and

the many public agencies which have as a part of their goals and mandates, the identification and protection of sensitive species and their habitats. Indeed, most of the information contained in this booklet was obtained from biologists working for federal or state agencies. These agencies, together with the state's herbaria and museum collections, provide much of the information that comprise ONHP's databases.

This report has been compiled using the most current information available on the distribution and abundance of plants and animals native to Oregon. Although based on a large volume of information, it is by no means complete. Much is known about some species, very little about others. ONHP welcomes additional information or recommendations regarding any of the taxa listed herein. Such information, as well as data requests should be directed to:

Oregon Natural Heritage Program  
1205 N.W. 25th Avenue  
Portland, Oregon 97210  
(503) 229-5078

This publication will be updated every other year. Copies may be obtained at cost (\$5.00), from ONHP.

## Outline

The book is divided into animal and plant sections. The sections begin with a description of the animal and plant programs in the state and are followed by the main list of animals and plants. For animals, the list is divided into major groups: fish, amphibians, reptiles, mammals, birds, and invertebrates and then arranged alphabetically by scientific name. The plant list is first divided into three groups: vascular plants, non-vascular plants, and fungi & lichens, and then alphabetized by scientific name. The information for each taxa includes common name, county, physiographic province, and adjacent state distribution, the various state and federal status, as well as ONHP status. Distribution abbreviations are listed and explained on the next two pages.

## Criteria and Definitions

Inclusion of any given taxon on these lists is based on several specific criteria. The most important factors are the total number of known, extant populations in Oregon and world-wide, and the degree to which they are potentially or actively threatened with destruction. Other criteria include the number of known populations considered to be securely protected, the size of the various populations, and the ability of the taxon to persist at known sites. The taxonomic distinctness of each species also has been considered. Hybrids or questionable, undescribed species have not been included; although undescribed taxa recognized by the scientific community in Oregon are included. Taxonomic experts who were consulted are listed in the acknowledgements on the back inside cover.

### Definitions

**Endangered** taxa are those which are in danger of becoming extinct within the foreseeable future throughout all or a significant portion of their range.

**Threatened** taxa are those likely to become endangered within the foreseeable future.

**LE** = Listed Endangered. Taxa listed by the U.S. Fish and Wildlife Service (USFWS) as Endangered under the Endangered Species Act (ESA), or by the Departments of Agriculture (ODA) and Fish and Wildlife (ODFW) of the state of Oregon under the Oregon Endangered Species Act of 1987 (OESA).

**LT** = Listed Threatened. Taxa listed by the USFWS, ODA, or ODFW as Threatened.

**PE** = Proposed Endangered. Taxa proposed by the USFWS to be listed as Endangered under the ESA or by ODFW or ODA under the OESA.

**PT** = Proposed Threatened. Taxa proposed by the USFWS to be listed as Threatened under the ESA or by ODFW or ODA under the OESA.

**C1** = Category 1 Candidate. Taxa for which the USFWS has sufficient information to support a proposal to list as Threatened or Endangered under the ESA.

**C2** = Category 2 Candidate. USFWS candidates which need additional information in order to propose as Threatened or Endangered under the ESA.

**C2\*** = Possibly Extinct Category 2 Candidate. USFWS candidates which may be extinct.

**3A** = Extinct Taxa. Taxa for which the USFWS has persuasive evidence of extinction.

**3B** = Taxonomic problems. Taxa which do not meet the USFWS's definition of a "species".

**3C** = Taxa which have proven to be more abundant or widespread than previously believed and/or which have no identifiable threats. This status is based only on the most recently published Candidate Notice of Review.

### Lists following Animal and Plant Sections

1) **Federal or State Listed Taxa** includes taxa listed or proposed to be listed by the USFWS as Endangered or Threatened under the ESA, based on the January 1, 1989 *Endangered & Threatened Wildlife and Plants*, a special reprint of Federal Register 50 CFR 17.11 & 17.12. For animals this list also includes state listed taxa as Endangered or Threatened by ODFW. State and federal listed plant taxa are included on the same list with state and federal candidate taxa (see below).

2) **Federal C1 and C2 Candidates** for listing under the Endangered Species Act. The animal candidates for both vertebrates and invertebrates are from January 6, 1989 Federal Register, Vol. 54, No. 4; the plants from the February 21, 1990 Federal Register, Vol. 55, No. 35.

3) **Oregon State Candidates** for animals is ODFW's Sensitive Species List, provided by the Department's Non-Game and Fisheries Programs in 1991 and for plants is ODA's Candidate Species List, dated March, 1991.

4) **Heritage Program Lists** include all taxa from List 1, List 2, List 3, List 4 and those Taxa Considered but Rejected. Taxa are arranged alphabetically within their respective list. Criteria for these lists are:

**List 1** contains taxa that are threatened with extinction or presumed to be extinct throughout their entire range. It is largely consistent with the Listed, Category 1 and 2 species from the USFWS. These species are in need of active protective measures to insure their survival. ONHP tracks all locations of these taxa on computerized and manual files.

**List 2** contains taxa that are threatened with extirpation or presumed to be extirpated from the state of Oregon. These are often peripheral or disjunct species which are of concern when considering the floral and faunal diversity within Oregon's borders. They can be very significant when protecting the genetic diversity of a taxon. ONHP, more than the state and federal agencies, regards extreme rarity as a significant threat, and has included species which are very rare in Oregon on this list. ONHP tracks all locations of these taxa on computerized and manual files.

**List 3** contains species for which more information is needed before status can be determined, but which may be threatened or endangered in Oregon or throughout their range. This is the Review List from past editions. ONHP maintains manual files for all of these taxa and computerized locational files on selected ones, including all Federal C1 and C2 Candidates.

**List 4** contains taxa which are of concern, but are not currently threatened or endangered. This includes taxa which are very rare but are currently secure, as well as taxa which are declining in numbers or habitat but are still too common to be proposed as threatened or endangered. While these taxa currently may not need the same active management attention as threatened or endangered taxa, they do require continued monitoring. ONHP maintains manual files for all of these taxa and computerized locational files on selected ones, including all Federal C1 and C2 Candidates.

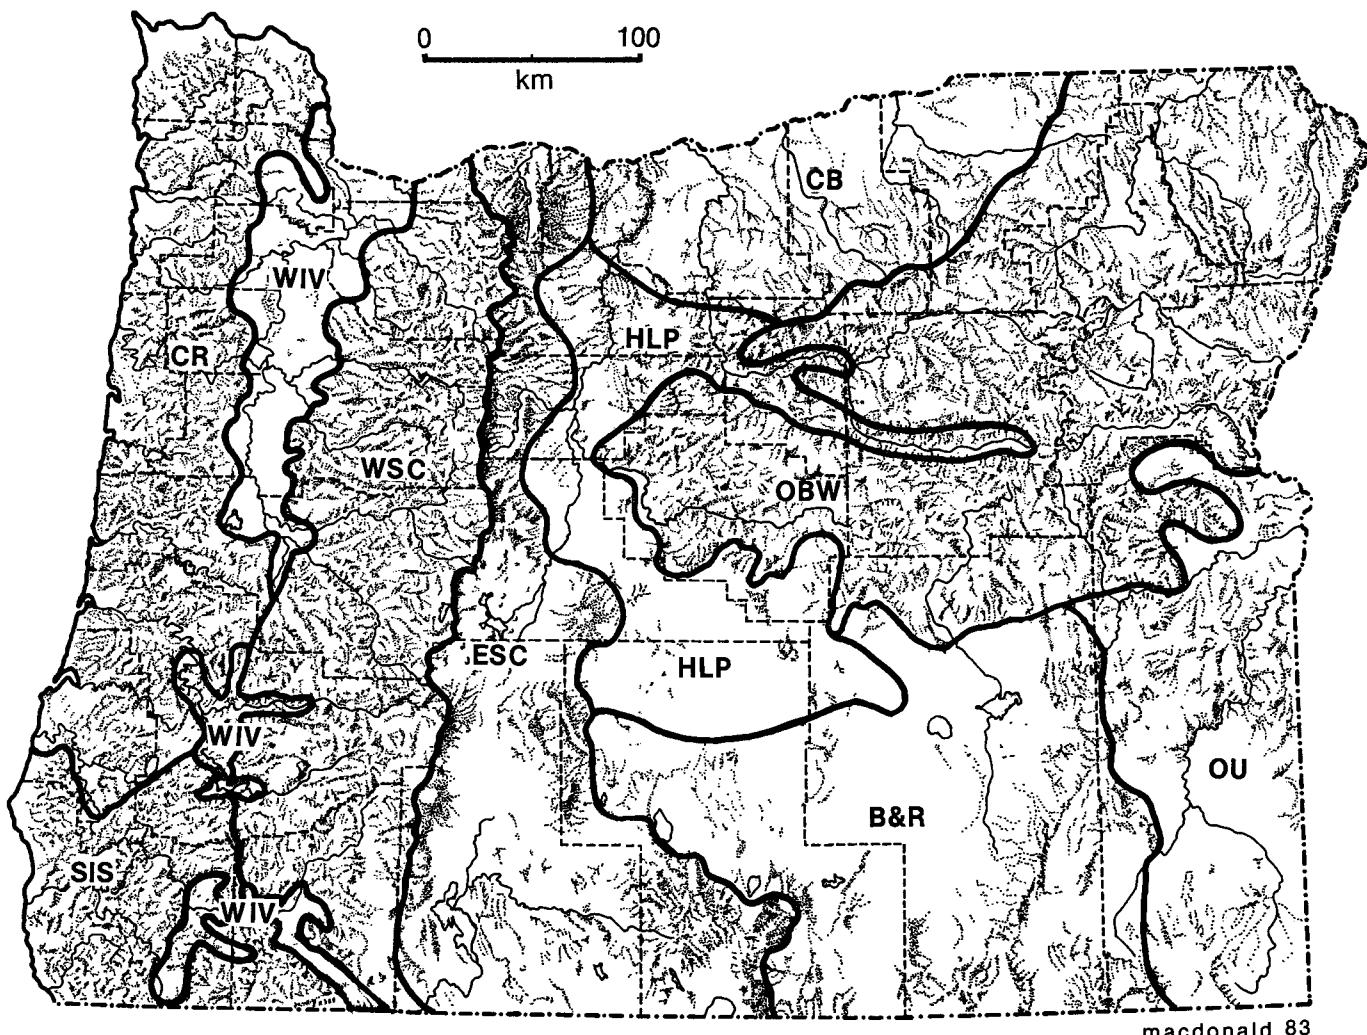

**Taxa Considered but Rejected** contains all taxa deleted from any of the above lists or nominated to these lists but rejected. In the past, we have included many taxa which were only suspected to be in Oregon. These have been dropped in this edition, but can be added to the lists in the future if they become documented in the state. Taxa dropped from the list since the last book (1989) are also included in the main list.

## MAPS AND DISTRIBUTION INFORMATION

**Distribution Information** is included on the lists in the following format: Physiographic Province; State (and/or Canadian Province); and County. Out-of-state distribution information is complete for plant and animal taxa on ONHP List 1 (which are usually Oregon or regional endemics). For all other taxa, adjacent states or the closest state with occurrences will be listed; a plus (+) signifies that the taxa is found in additional states. Taxa with no other states noted are Oregon endemics. For the most part, the Physiographic Province, County and State distribution is based on both historic and current information. Any additional input on distribution will be incorporated in future updates of this book.

**Physiographic Province** occurrences for each species is keyed to the base map below. This map divides the state into ten distinct biomes based on geologic and vegetative patterns. It is modified from the 1973 publication *Natural Vegetation of Oregon and Washington* by Franklin and Dyrness, and matches maps in the *Oregon Nongame Plan* (1986) and the *Oregon Natural Heritage Plan* (1988). The provinces are CR=Oregon Coast Range, WIV=Western Oregon Interior Valleys, SIS=Siskiyou Mountains, WSC=West Side & Crest, Oregon Cascades, ESC=East Side Oregon Cascades, OBW=Ochoco, Blue & Wallowa Mountains, B&R=Basin and Range, HLP=High Lava Plains, OU=Owyhee Uplands, and CB=Columbia Basin.

### Physiographic Provinces of Oregon:

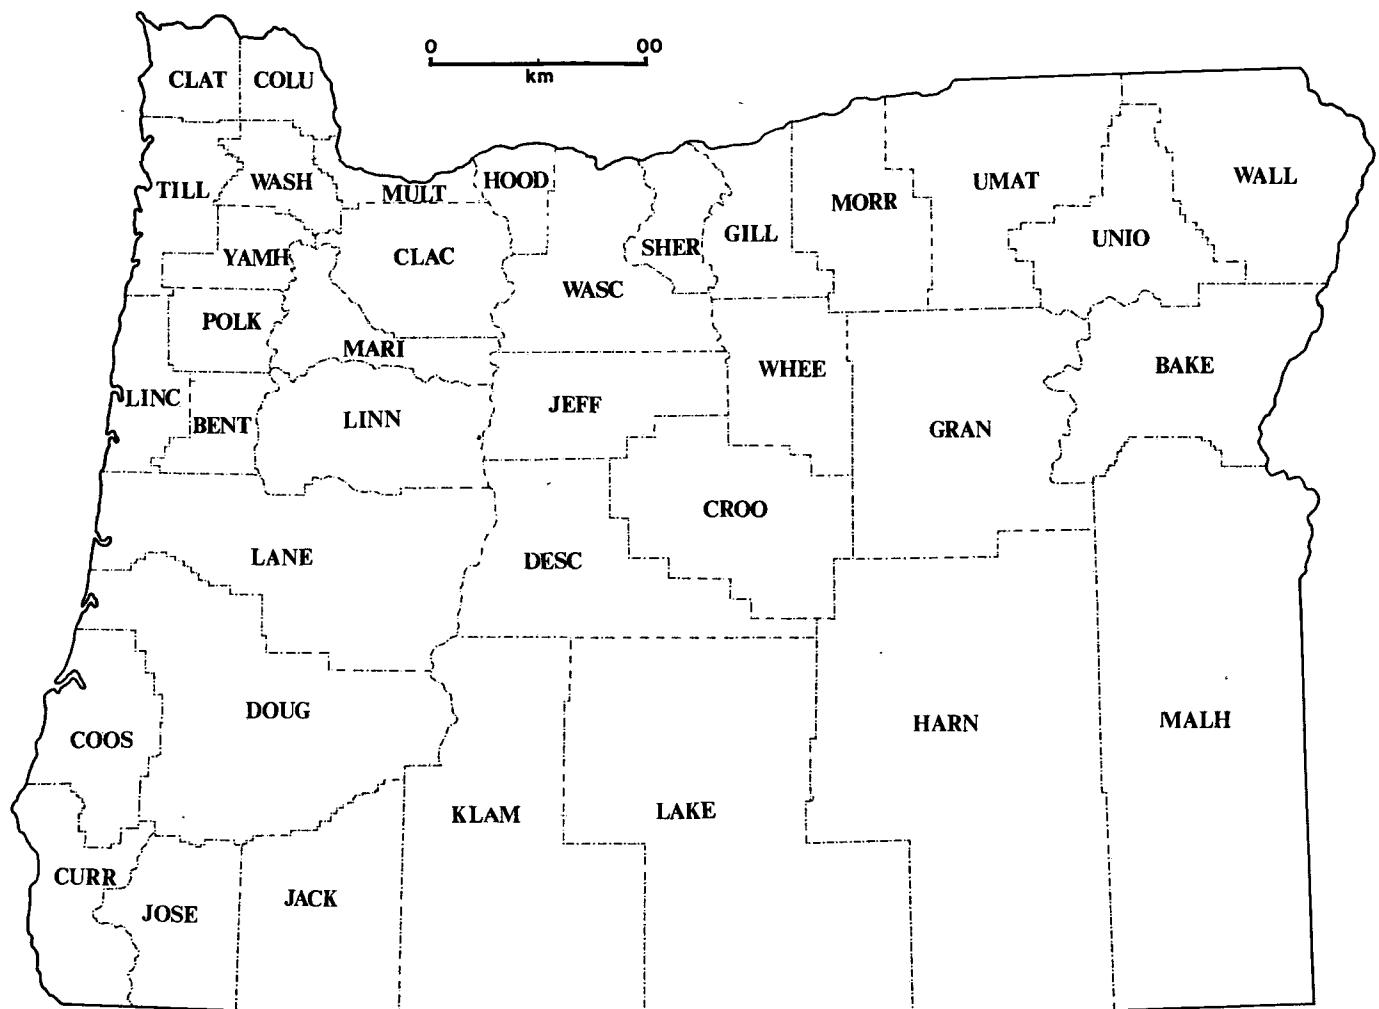

## MAPS AND DISTRIBUTION INFORMATION (cont.)

County distribution is keyed to the base map on the bottom half of this page. The abbreviations are made from the first four letters of each county name. The county names are: Baker, Benton, Clackamas, Clatsop, Columbia, Coos, Crook, Curry, Deschutes, Douglas, Gilliam, Grant, Harney, Hood River, Jackson, Jefferson, Josephine, Klamath, Lake, Lane, Lincoln, Linn, Malheur, Marion, Morrow, Multnomah, Polk, Sherman, Tillamook, Umatilla, Union, Wallowa, Wasco, Washington, Wheeler, Yamhill. The county information included is based on data from ONHP files. Please notify us of mistakes or omissions.

State and Canadian Province distribution is included on the lists primarily to alert biologists to the distribution of these rare, threatened, and endangered taxa in adjacent states. The distribution for the more wide ranging species in states not adjacent to Oregon is primarily based on published information and may not be complete. The two-letter postal abbreviation is used to identify states and are as follows: CA=California, ID=Idaho, NV=Nevada, and WA=Washington. Only five Canadian provinces were abbreviated in the lists: AB=Alberta, BC=British Columbia, ON=Ontario, QU=Quebec, and SK=Saskatchewan.

### County Names

## SPECIAL ANIMALS

---

The Main List of special animals includes rare, threatened and endangered vertebrate and invertebrate species that are native to Oregon and that have (or have had) sustained breeding populations within the state.

This list includes Federal and State listed species and federal candidate species, including several species that are presently considered invalid species or have undergone taxonomic revision (Pistol River pocket gopher (*Thomomys bottae detumidus*), willow/whitehorse cutthroat trout (*Oncorhynchus clarki* ssp.). The status of Federal candidate species is from the January 6, 1989 Federal Register, but readers should be aware that the USFWS anticipates publishing a new list of animal candidates by mid-1991. This main listing of animals does not include open-ocean mammals or sea turtles as these species generally occur offshore and do not breed in Oregon. All Federal and State listed marine species are, however, included in the individual summary of Federal and State listed species.

The main listing of animal species is divided into 6 groups (fish, amphibians, reptiles, birds, mammals, invertebrates), arranged alphabetically by genus within each grouping. For each species, we have noted the federal status (USFWS), state status (ODFW) and Heritage List ranking (ONHP), as well as its distribution by physiographic province and county in Oregon, and also its presence in adjacent states. In the Main List, we have abbreviated ODFW's sensitive species categories as follows: SC=Critical, SV=Vulnerable, SP=Peripheral or naturally rare, and SU=Undetermined status. Separate lists summarizing federal and state listed species, federal candidate species (C1 & C2), ODFW's state sensitive species and species noted on Lists 1, 2, 3, and 4 of the Heritage Program follow the main listing of animal species.

For the ONHP Lists, the status of the avian species refers to the breeding populations. Some species may be common in winter or migration but rare as breeders in Oregon, and in these instances it is only the breeding populations that are of concern (i.e. harlequin duck, bufflehead, common loon). There are several bird species that have nested in Oregon on occasion (semipalmated plover, black-chinned sparrow, solitary sandpiper), but may not yet be considered established breeding populations. For now, these species are included on the List 3 (Review List) pending more accurate determination of their breeding status.

ONHP Lists also includes wintering populations for those avian species which are present year round and have extremely sensitive, threatened or otherwise vulnerable populations (bald eagle, snowy plover). Otherwise, species that occur in Oregon in migration or as winter residents only are not considered here, except in instances where a species is of an especially sensitive

nature with critical staging or wintering locations (i.e. Aleutian Canada goose, brown pelican). Those species of accidental occurrence are not included (snowy owl, red-shouldered hawk).

Compilation of the invertebrate lists has been especially difficult. Little is known about the status and distribution of most invertebrate taxa found in Oregon, particularly those which may be rare, threatened or otherwise vulnerable. The Oregon Natural Heritage Program is in the process of obtaining limited authority for invertebrates through a cooperative agreement with the U.S. Fish and Wildlife Service. It is our hope that in cooperation with State and Federal agencies we can assist and coordinate efforts to gather information and better ascertain the status of rare, threatened and endangered invertebrate populations in Oregon.

A key programmatic objective of the ONHP is to serve as a clearinghouse of information regarding site specific location of rare, threatened and endangered species in Oregon. Our intent is to obtain and computerize locational information for all State and Federal listed animal species, as well as all Federal candidate species (C1 & C2). We also computerize location data of other animal species that we believe are rare (of limited abundance or restricted distribution), threatened, endangered or otherwise vulnerable in Oregon.

Generally, the ONHP maintains computerized information for all animal species on ONHP Lists 1 and 2, as well as selected species on lists 3 and 4 that have Federal candidate status or that we believe are otherwise rare or of special concern in Oregon. In the Main List, we have placed an asterisk (\*) adjacent to the ONHP status for each species for which site specific computerized information is maintained. Additionally, we maintain manual files for all animal species noted herein. We encourage and welcome the submission of information, reports and observations on all of the special animal species noted on the Federal, State and Heritage Program lists.

**Oregon Endangered Animal Species Program - ODFW**  
Clair Puchy, Nongame Program Coordinator and  
Hal Weeks, T & E Fish Program Leader

The Oregon Department of Fish and Wildlife (ODFW) maintains a list of threatened and endangered species under the authority of ORS 496-172, the Oregon Endangered Species Act, 1987. There are currently 30 species on the list with three more pending. The three, currently on Oregon's Sensitive Species List, are the Lost River sucker, shortnose sucker and Northern (Steller) sea lion. The Act requires the department to develop plans for the management and protection of listed species. A typical plan is to include inventories and status surveys

and management recommendations that will facilitate recovery and eventual delisting of the animal. The Oregon Fish and Wildlife Commission has adopted administrative rules, OAR 635-100-100 to 130, which clarify the Act and provide criteria for listing, delisting and protection of listed species.

The Oregon Fish and Wildlife Commission has also adopted a rule requiring the department to develop and maintain a state list of Sensitive Species for vertebrates in the state. The rule is OAR 635-100-040. Sensitive species constitute naturally-reproducing native animals which are likely to become threatened or endangered throughout all or a significant portion of their range in Oregon. The Sensitive Species list is for the express purpose of encouraging actions that will prevent further decline in species' populations and/or habitats thus reducing the need for listing. This list is updated biennially. Anyone may request that a species be added to or removed from the list by writing to the department and providing justification for the requested action.

Sensitive species are broken into four categories defined as follows:

### **CRITICAL (C)**

Species for which listing as threatened or endangered is pending; or those for which listing as threatened or endangered may be appropriate if immediate conservation actions are not taken. Also considered critical are some peripheral species which are at risk throughout their range, and some disjunct populations.

### **VULNERABLE (V)**

Species for which listing as threatened or endangered is not believed to be imminent and can be avoided through continued or expanded use of adequate protective measures and monitoring. In some cases the population is sustainable, and protective measures are being implemented; in others, the population may be declining and improved protective measures are needed to maintain sustainable populations over time.

### **PERIPHERAL OR NATURALLY RARE (P)**

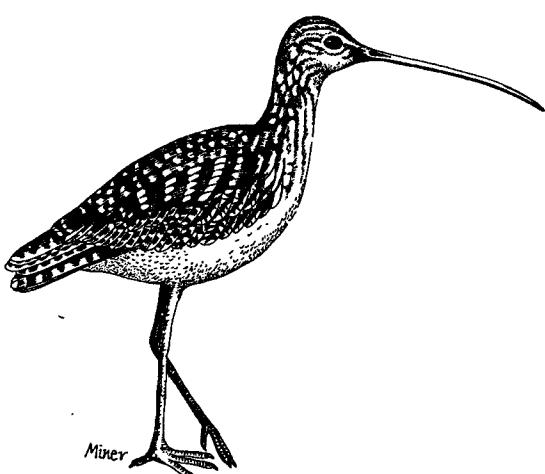

Peripheral species refer to those whose Oregon populations are on the edge of their range. Naturally rare species are those which had low population numbers historically in Oregon because of naturally limiting factors. Maintaining the status quo for the habitats and populations of these species is a minimum requirement. Disjunct populations of several species which occur in Oregon should not be confused with peripheral.

### **UNDETERMINED STATUS (U)**

Animals in this category are species for which status is unclear. They may be susceptible to population decline of sufficient magnitude that they could qualify for endangered, threatened, critical or vulnerable status, but scientific study will be required before a judgement can be made.

All efforts towards management and protection of threatened, endangered and sensitive species in Oregon will be coordinated with other state and federal agencies and private conservation organizations. Copies of the Oregon Endangered Species Act or administrative rules, or the Sensitive Species rule, or additional lists of the threatened and endangered or sensitive species may be requested from the department by writing to:

## FEDERAL CANDIDATE ANIMAL SPECIES (C2)

### Fish

*Catostomus occidentalis lacusanserinus* - Goose Lake sucker  
*Catostomus rimiculus* ssp. - Jenny Creek sucker  
*Catostomus snyderi* - Klamath largescale sucker  
*Cottus bairdi* ssp. - Malheur mottled sculpin  
*Cottus tenuis* - slender sculpin  
*Gila alvordensis* - Alvord chub  
*Gila bicolor* ssp. - Catlow tui chub  
*Gila bicolor* ssp. - Summer Basin tui chub (C1)  
*Gila bicolor euryzoma* - Sheldon tui chub  
*Gila bicolor oregonensis* - Oregon Lakes tui chub  
*Oregonichthys crameri* - Oregon chub  
*Salmo* (=*Oncorhynchus*) sp. - redband trout  
*Salmo* (=*Oncorhynchus*) *clarki* ssp. - Willow/Whitehorse cutthroat trout  
*Salvelinus confluentus* - bull trout

### Amphibians

*Plethodon elongatus* - Del Norte salamander  
*Plethodon larselli* - Larch Mountain salamander  
*Plethodon stormi* - Siskiyou Mountain salamander

### Reptiles

*Clemmys marmorata marmorata* - northwestern pond turtle

### Birds

*Agelaius tricolor* - tricolored blackbird  
*Brachyramphus marmoratus* - marbled murrelet  
*Buteo regalis* - ferruginous hawk  
*Centrocercus urophasianus phaios* - western sage grouse  
*Charadrius alexandrinus nivosus* - western snowy plover  
*Numenius americanus* - long-billed curlew  
*Plegadis chihi* - white-faced ibis  
*Tympanuchus phasianellus columbianus* - Columbian sharp-tailed grouse

### Mammals

*Arborimus albipes* - white-footed vole  
*Euderma maculatum* - spotted bat  
*Felis lynx canadensis* - North American lynx  
*Gulo gulo luteus* - California wolverine  
*Ovis canadensis californiana* - California bighorn sheep  
*Plecotus townsendii townsendii* - Pacific (=Townsend's) western big-eared bat  
*Sorex preblei* - Preble's shrew  
*Thomomys mazama helleri* - Gold Beach western pocket gopher  
*Thomomys umbrinus detumidus* - Pistol River pocket gopher

### Invertebrates

*Acneus beeri* - Beer's false water penny beetle  
*Acneus burnelli* - Burnell's false water penny beetle  
*Agapetus denningi* - Denning's agapetus caddisfly  
*Agonum belleri* - Beller's ground beetle  
*Algamorda newcombiiana* (*Littorina subrotunda*) - Newcomb's littorine snail  
*Apatania* (=*Radema*) *tavala* - Cascades apatanian caddisfly  
*Apochthonius malheuri* - Malheur pseudoscorpion  
*Bombus franklini* - Franklin's bumblebee  
*Ceraclea* (=*Athripsodes*) *vertreesi* - Vertree's ceraclean caddisfly  
*Chloealtis aspasma* - Siskiyou chloealtis grasshopper  
*Cryptochia neosa* - Blue Mountains cryptochian caddisfly  
*Eobrachycentrus gelidae* - Mt. Hood primitive brachycentrid caddisfly  
*Farula davisii* - Green Springs Mountain farulan caddisfly  
*Farula jewetti* - Mt. Hood farulan caddisfly  
*Farula reaperi* - Tombstone Prairie farulan caddisfly  
*Fisherola nuttalli* - shortface lanx (giant Columbia River limpet)  
*Fluminicola* (=*Lithoglyphus*) *columbianus* - Columbia pebblesnail (=great Columbia River spire snail)  
*Homoplectra schuhii* - Schuh's homoplectran caddisfly  
*Hydropsyche abella* - Abellan hydropsyche caddisfly  
*Kenkia rhynchida* - planarian, no common name  
*Lepidostoma goedeni* - Goeden's lepidostoman caddisfly  
*Limnephilus atercus* - Fort Dick limnephilus caddisfly  
*Megascolides macelfreshi* - Oregon giant earthworm  
*Monadenia fidelis minor* - Oregon snail  
*Nemoura wahkeena* - Wahkeena Falls flightless stonefly  
*Neothremma andersoni* - Columbia Gorge neothremman caddisfly  
*Ochrotrichia alsea* - Alsea ochrotrichian micro caddisfly  
*Ochrotrichia phenosa* - Deschutes ochrotrichian micro caddisfly  
*Ochrotrichia vertreesi* - Vertree's ochrotrichian micro caddisfly  
*Oligophlebodes mostbento* - Tombstone Prairie oligophlebodes caddisfly  
*Philocasca oron* - Clatsop philocascan caddisfly  
*Pisidium ultramontanum* - Oregon pearly mussel  
*Pterostichus rothi* - Roth's blind ground beetle  
*Rhyacophila colonus* - Obrien rhyacophilan caddisfly  
*Rhyacophila fenderi* - Fender's rhyacophilan caddisfly  
*Rhyacophila haddocki* - Haddock's rhyacophilan caddisfly  
*Rhyacophila unipunctata* - one-spot rhyacophilan caddisfly  
*Stygobromus hubbsi* - Malheur Cave amphipod  
*Tinodes siskiyou* - Siskiyou caddisfly

# OREGON DEPARTMENT OF FISH & WILDLIFE SENSITIVE SPECIES LIST

## Fish

- Catostomus occidentalis lacus-anserinus* - Goose Lake sucker (C)  
*Catostomus tahoensis* - Tahoe sucker (P)  
*Chasmistes brevirostris* - shorthnose sucker (C)  
*Cottus bairdi* ssp. - Malheur mottled sculpin (C)  
*Cottus marginatus* - margined sculpin (V)  
*Cottus pitensis* - Pit sculpin (P)  
*Deltistes luxatus* - Lost River sucker (C)  
*Gila alvordensis* - Alvord chub (V)  
*Gila bicolor* ssp. - Catlow tui chub (V)  
*Gila bicolor* ssp. - Summer Basin tui chub (C)  
*Gila bicolor euryzoma* - Sheldon tui chub (C)  
*Gila bicolor oregonensis* - Oregon Lake tui chub (V)  
*Hesperoleucus symmetricus mitrulus* - California (pit) roach (P)  
*Lampetra tridentata* ssp. - Goose Lake lamprey (C)  
*Oncorhynchus clarki* - coastal cutthroat trout; Columbia Basin anadromous run (C), coastal stocks (U)  
*Oncorhynchus clarki lewesii* - westslope cutthroat trout (V)  
*Oncorhynchus keta* - chum salmon (C)  
*Oncorhynchus kisutch* - coho salmon, Columbia Basin runs (C)  
*Oncorhynchus kisutch* - coho salmon, south Coast (south of Bandon) runs (C)  
*Oncorhynchus tshawytscha* ssp - fall chinook salmon, lower Columbia River (downstream of Bonneville) runs (C)  
*Oncorhynchus tshawytscha* ssp - fall chinook salmon, Snake River Basin runs (C)  
*Oncorhynchus tshawytscha* ssp - fall chinook, south Coast runs (s. of Bandon except for Rogue R. runs above Agness) (C)  
*Oncorhynchus tshawytscha* ssp - spring chinook salmon, Snake River Basin runs (C)  
*Oncorhynchus mykiss* ssp. - inland/redband trout, all populations east of Cascade Crest except mainstem Deschutes R. (C)  
*Oregonichthys crameri crameri* - Oregon chub (Willamette) (C)  
*Rhinichthys cataractae* ssp. - Millicoma dace (U)  
*Richardsonius egregius* - Lahontan redside (P)  
*Salvelinus confluentus* - bull trout (C)

## Amphibians

- Aneides ferrus* - clouded salamander (C)  
*Aneides flavipunctatus* - black salamander (P)  
*Ascaphus truei* - tailed frog (V)  
*Batrachoseps attenuatus* - California slender salamander (P)  
*Batrachoseps wrighti* - Oregon slender salamander (C)  
*Dicamptodon copei* - Cope's giant salamander (C)  
*Plethodon elongatus* - Del Norte salamander (V)  
*Plethodon larselli* - Larch Mountain salamander (V)  
*Plethodon stormi* - Siskiyou Mountain salamander (V)  
*Rana aurora* - red-legged frog (U)  
*Rana boylii* - foothill yellow-legged frog (U)  
*Rana cascadae* - Cascade frog (C)  
*Rana pipiens* - leopard frog (V)  
*Rana pretiosa* - spotted frog (C)  
*Rhyacotriton olympicus* - Olympic salamander (V)

## Reptiles

- Chrysemys picta* - painted turtle (C)  
*Clemmys marmorata* - western pond turtle (C)  
*Contia tenuis* - sharptail snake (C)  
*Crotaphytus bicinctores* - Mojave black-collared lizard (V)  
*Lampropeltis getulus* - common kingsnake (P)  
*Lampropeltis zonata* - California mountain kingsnake (P)  
*Phrynosoma platyrhinos* - desert horned lizard (V)  
*Sonoraa semiannulata* - western ground snake (P)

## Birds

- Accipiter gentilis* - northern goshawk (C)  
*Agelaius tricolor* - tricolored blackbird (P)  
*Ammodramus savannarum* - grasshopper sparrow (U)  
*Athene cunicularia* - burrowing owl (WIV, OBW, CB only) (C)  
*Bartramia longicauda* - upland sandpiper (C)  
*Brachyrhampus marmoratus* - marbled murrelet (C)  
*Branta canadensis occidentalis* - dusky Canada goose (V)  
*Bucephala albeola* - bufflehead (breeding) (P)  
*Bucephala islandica* - Barrow's goldeneye (breeding) (P)  
*Buteo regalis* - ferruginous hawk (C)  
*Buteo swainsoni* - Swainson's hawk (V)  
*Centrocercus urophasianus* - sage grouse (ESC, OBW, CB) (V)  
*Coccyzus americanus* - yellow-billed cuckoo (C)  
*Coturnicops noveboracensis* - yellow rail (C)  
*Cypseloides niger* - black swift (P)  
*Dendragapus canadensis* - spruce grouse (U)  
*Dolichonyx oryzivorus* - bobolink (V)  
*Dryocopus pileatus* - pileated woodpecker (C)  
*Egretta thula* - snowy egret (breeding) (V)  
*Eremophila alpestris strigata* - streaked horned lark (WIV) (U)  
*Glaucidium gnoma* - northern pygmy owl (U)  
*Grus canadensis tabida* - greater sandhill crane (V)  
*Histrionicus histrionicus* - harlequin duck (breeding) (P)  
*Ixobrychus exilis* - least bittern (P)  
*Larus pipixcan* - Franklin's gull (P)  
*Leucosticte arctoa atrata* - black rosy finch (B&R) (P)  
*Melanerpes formicivorus* - acorn woodpecker (U)  
*Melanerpes lewis* - Lewis woodpecker (WIV, WSC, ESC, CB)(C)  
*Oceanodroma furcata* - fork-tailed storm-petrel (breeding) (V)  
*Otus flammeolus* - flammulated owl (C)  
*Pelecanus erythrorhynchos* - American white pelican (breeding) (V)  
*Picoides albolarvatus* - white-headed woodpecker (C)  
*Picoides arcticus* - black-backed woodpecker (C)  
*Picoides tridactylus* - three-toed woodpecker (C)  
*Plegadis chihi* - white-faced ibis (V)  
*Podiceps auritus* - horned grebe (breeding) (P)  
*Podiceps grisegena* - red-necked grebe (breeding) (C)  
*Progne subis* - purple martin (C)  
*Riparia riparia* - bank swallow (U)  
*Sialia mexicana* - western bluebird (CR, WIV, WSC) (V)  
*Sitta pygmaea* - pigmy nuthatch (V)  
*Sphyrapicus thyroideus* - Williamson's sapsucker (U)  
*Strix nebulosa* - great gray owl (V)

## Mammals

- Ammospermophilus leucurus* - white-tailed antelope squirrel (U)  
*Antrozous pallidus* - pallid bat (V)  
*Bassariscus astutus* - ringtail (U)  
*Brachylagus idahoensis* - pygmy rabbit (V)  
*Eumetopias jubatus* - northern (Steller) sea lion (C)  
*Lepus townsendii* - white-tailed jackrabbit (V)  
*Martes americana* - marten (C)  
*Martes pennanti* - fisher (C)  
*Myotis thysanodes* - fringed (myotis) bat (V)  
*Phenacomys albipes* - white-footed vole (P)  
*Plecotus townsendii* - Townsend's big-eared bat (C)  
*Spermophilus washingtoni* - Washington ground squirrel (C)

C = Critical

V = Vulnerable

P = Peripheral or Naturally Rare

U = Undetermined Status

(for further explanation of status, see p. 7)

## LIST 1 and LIST 2

### Fish

*Catostomus warnerensis* - Warner sucker  
*Chasmistes brevirostris* - shortnose sucker  
*Deltistes luxatus* - Lost River sucker  
*Gila bicolor* ssp. - Hutton Springs tui chub  
*Gila bicolor* ssp. - Summer Basin tui chub  
*Gila boraxobius* - Borax Lake chub  
*Lampetra minima* - Miller Lake lamprey  
*Oncorhynchus clarki* ssp. - Alvord cutthroat trout  
*Oncorhynchus clarki henshawi* - Lahontan cutthroat trout  
*Oncorhynchus kisutch* ssp. - coho salmon, Columbia River runs  
*Oncorhynchus kisutch* ssp. - coho salmon, south Coast runs  
*Oncorhynchus nerka* ssp. - sockeye salmon, Snake River runs  
*Oncorhynchus tshawytscha* ssp. - fall chinook salmon, Snake River runs  
*Oncorhynchus tshawytscha* ssp. - spring chinook salmon, Snake River runs  
*Oregonichthys crameri* - Oregon chub  
*Rhinichthys osculus* ssp. - Foskett speckled dace

### Amphibians

*Batrachoseps wrighti* - Oregon slender salamander

### Birds

*Branta canadensis leucopareia* - Aleutian Canada goose  
*Falco peregrinus (anatum)* - peregrine falcon (American)  
*Gymnogyps californianus* - California condor  
*Haliaeetus leucocephalus* - bald eagle  
*Strix occidentalis caurina* - northern spotted owl  
*Tympanuchus phasianellus columbianus* - Columbian sharp-tailed grouse

### Mammals

*Myotis thysanodes* ssp. - fringed bat  
*Odocoileus virginianus leucurus* - Columbian white-tailed deer

### Invertebrates

*Apochthonius malheuri* - Malheur pseudoscorpion  
*Bombus franklini* - Franklin's bumblebee  
*Icaricia icarioides fenderi* - Fender's blue butterfly  
*Megascolides maculifreshi* - Oregon giant earthworm  
*Pterostichus rothi* - Roth's blind ground beetle  
*Speyeria zerene hippolyta* - Oregon silverspot butterfly  
*Speyeria callippe extincta* - Willamette callippe butterfly

## LIST 2

### Fish

*Catostomus occidentalis lacusanserinus* - Goose Lake sucker  
*Cottus pitensis* - Pit sculpin  
*Catostomus tahoensis* - Tahoe sucker  
*Gila alvordensis* - Alvord chub  
*Gila bicolor euryzoma* - Sheldon tui chub  
*Oncorhynchus keta* - chum salmon  
*Richardsonius egregius* - Lahontan redside

## LIST 2 (cont.)

### Amphibians

*Batrachoseps attenuatus* - California slender salamander  
*Dicamptodon copei* - Cope's giant salamander  
*Rana pretiosa* - spotted frog  
*Rana pipiens* - (northern) leopard frog  
*Plethodon stormi* - Siskiyou Mountains salamander

### Reptiles

*Clemmys marmorata marmorata* - northwestern pond turtle  
*Contia tenuis* - sharptail snake

### Birds

*Agelaius tricolor* - tricolored blackbird  
*Bartramia longicauda* - upland sandpiper  
*Brachyramphus marmoratus* - marbled murrelet  
*Bucephala albeola* - bufflehead  
*Charadrius alexandrinus nivosus* - western snowy plover  
*Charadrius semipalmatus* - semipalmated sandpiper  
*Coccyzus americanus* - yellow-billed cuckoo  
*Coturnicops noveboracensis* - yellow rail  
*Egretta thula* - snowy egret  
*Falco columbarius* - merlin  
*Gavia immer* - common loon  
*Histrionicus histrionicus* - harlequin duck  
*Ixobrychus exilis* - least bittern  
*Larus pipixcan* - Franklin's gull  
*Leucosticte arctoa tephrocotis* - Wallowa rosy finch  
*Oceanodroma furcata* - fork-tailed storm-petrel  
*Pelecanus erythrorhynchos* - American white pelican  
*Pelecanus occidentalis* - brown pelican  
*Podiceps grisegena* - red-necked grebe  
*Tringa melanoleuca* - greater yellowlegs

### Mammals

*Brachylagus idahoensis* - pygmy rabbit  
*Canis lupus* - gray wolf  
*Enhydra lutris nereis* - southern sea otter  
*Euderma maculatum* - spotted bat  
*Felis lynx canadensis* - North American lynx  
*Gulo gulo luteus* - California wolverine  
*Martes pennanti* - fisher  
*Plecotus townsendii townsendii* - Pacific western big-eared bat  
*Spermophilus elegans nevadensis* - Wyoming ground squirrel  
*Spermophilus washingtoni* - Washington ground squirrel  
*Ursus arctos* - grizzly bear  
*Vulpes macrotis* - kit fox

### Invertebrates

*Agonum belleri* - Beller's ground beetle  
*Boloria bellona* - eastern meadow fritillary butterfly  
*Boloria selene tollandensis* - silver-bordered fritillary butterfly  
*Chrysobothris potentillae* - potentilla root borer beetle  
*Cicindela columbica* - Columbia River tiger beetle  
*Cicindella hirticollis siuslawensis* - Siuslaw sand tiger beetle  
*Euphydryas editha taylori* - Taylor's checkerspot butterfly  
*Incisalia polios obscurus* - hoary elfin butterfly  
*Ochlodes agricola agricola* - rural skipper butterfly  
*Polites coras* - Peck's skipper butterfly  
*Polites mystic* - long dash skipper butterfly  
*Saldula villosa* - hairy shore bug  
*Speyeria zerene bremneri* - valley silverspot butterfly

### LIST 3 (Review)

#### Fish

*Catostomus snyderi* - Klamath largescale sucker  
*Cottus bairdi* ssp. - Malheur mottled sculpin  
*Cottus marginatus* - margined sculpin  
*Cottus princeps* - Klamath Lake sculpin  
*Cottus tenuis* - slender sculpin  
*Gila bicolor* ssp. - Catlow tui chub  
*Gila bicolor oregonensis* - Oregon Lakes tui chub  
*Hesperoleucus symmetricus* - California roach  
*Lampetra tridentata* ssp. - Goose Lake lamprey  
*Oncorhynchus clarki clarki* - coastal cutthroat trout, Columbia River and coastal runs  
*Oncorhynchus clarki lewisi* - westslope cutthroat trout  
*Oncorhynchus mykiss gibbsi* - inland redband trout  
*Oncorhynchus mykiss* ssp. - Catlow Valley redband trout  
*Oncorhynchus mykiss* ssp. - Goose Lake redband trout  
*Oncorhynchus mykiss* ssp. - Warner Valley redband trout  
*Rhinichthys cataractae* ssp. - Millicoma dace  
*Salvelinus confluentus* - bull trout

#### Amphibians

*Aneides ferrus* - clouded salamander  
*Aneides flavipunctatus* - black salamander  
*Plethodon elongatus* - Del Norte salamander  
*Plethodon larselli* - Larch Mountain salamander  
*Rana cascadae* - Cascade frog  
*Taricha granulosa mazama* - Crater Lake newt

#### Reptiles

*Chrysemys picta* - painted turtle  
*Crotaphytus bicinctores* - black-collared lizard  
*Lampropeltis getulus* - common kingsnake  
*Lampropeltis zonata* - California mountain kingsnake  
*Phrynosoma platyrhinos* - desert horned lizard  
*Sonoraa semiannulata* - western ground snake

#### Birds

*Accipiter gentilis* - northern goshawk  
*Aegolius funereus* - boreal owl  
*Ammodramus savannarum* - grasshopper sparrow  
*Amphispiza bilineata* - black-throated sparrow  
*Archilochus alexandri* - black-chinned hummingbird  
*Athene cunicularia* - burrowing owl  
*Aythya affinis* - lesser scaup  
*Buteo regalis* - ferruginous hawk  
*Buteo swainsoni* - Swainson's hawk  
*Casmerodius albus* - great egret  
*Cypseloides niger* - black swift  
*Dendragapus canadensis* - spruce grouse  
*Dolichonyx oryzivorus* - bobolink  
*Elanus caeruleus* - black-shouldered kite  
*Eremophila alpestris strigata* - streaked horned lark  
*Glaucidium gnoma* - northern pygmy owl  
*Gymnorhinus cyanocephala* - pinyon jay  
*Lanius ludovicianus* - loggerhead shrike  
*Leucosticte arctoa atrata* - black rosy finch  
*Melanerpes formicivorus* - acorn woodpecker  
*Melanerpes lewis* - Lewis' woodpecker  
*Pinicola enucleator* - pine grosbeak  
*Polioptila caerulea* - blue-gray gnatcatcher  
*Progne subis* - purple martin  
*Riparia riparia* - bank swallow  
*Sciurus noveboracensis* - northern waterthrush  
*Selasphorus platycercus* - broad-tailed hummingbird  
*Spizella atrogularis* - black-chinned sparrow  
*Sturna forsteri* - Forster's tern  
*Tringa solitaria* - solitary sandpiper

#### Mammals

*Antrozous pallidus pacificus* - Pacific pallid bat  
*Bassaris astutus* - ringtail  
*Eumetopias jubatus* - northern sea lion  
*Martes americana* - pine marten  
*Phenacomys (=Arborimus) albipes* - white-footed vole  
*Tadarida brasiliensis* - Brazilian free-tailed bat

#### Invertebrates

*Acalypta cooleyi* - Cooley's tingid  
*Acetropis oregana* - Oregon acetropis  
*Acneus beeri* - Beer's false water penny beetle  
*Acneus burnelli* - Burnell's false water penny beetle  
*Acupalpus punctatus* - no common name  
*Agapetus denningi* - Denning's agapetus caddisfly  
*Algamorda newcombiiana* - Newcomb's littorine snail  
*Apatania (=Radema) tavala* - Cascades apatanian caddisfly  
*Bembidion tigrinum* - cryptic beach carabid beetle  
*Centrophilus perplexus* - no common name  
*Ceraclea vertreesi* - Vertree's ceraclean caddisfly  
*Chloeoalitis aspasma* - Siskiyou chloealitis grasshopper  
*Cryptochia neosa* - Blue Mountains cryptochian caddisfly  
*Eobrachycentrus gelidae* - Mt. Hood brachycentrid caddisfly  
*Eusattus rectus* - ground beetle  
*Farula davisi* - Green Springs Mountain farulan caddisfly  
*Farula jewetti* - Mt. Hood farulan caddisfly  
*Farula reaperi* - Tombstone Prairie farulan caddisfly  
*Fisherola nuttalli* - shortface lanx (=giant Columbian River limpet)  
*Fluminicola (=Lithoglyphus) columbianus* - Columbia pebblesnail (=great Columbia River spire snail)  
*Grylloblatta* sp. nov. - Mary's Peak ice cricket  
*Haliotis rufescens* - red abalone  
*Homoplectra schuhi* - Schuh's homoplectran caddisfly  
*Hydroporus corvallis* - no common name  
*Hydropsyche abella* - Abellan hydropsyche caddisfly  
*Juga bulbosa* - bulb juga  
*Juga hemphilli maupinensis* - purple-lipped juga  
*Kenkia rhynchida* - planarian, no common name  
*Lepidostoma geodeni* - Goeden's lepidostoman caddisfly  
*Limnephilus atercus* - Fort Dick limnephilus caddisfly  
*Lycaena mariposa* ssp. - mariposa copper butterfly  
*Lycaena phlaeas arciodon* - beartooth copper butterfly  
*Malthodes glyphidius* - cantharid beetle  
*Micrantha fennica* - Harney micrantha  
*Monadenia fidelis minor* - Oregon snail  
*Nemoura wahkeena* - Wahkeena Falls flightless stonefly  
*Neominois ridingsii stretchii* - Stretch's satyr butterfly  
*Neothremma andersoni* - Columbia Gorge caddisfly  
*Ochrotrichia alsea* - Alsea ochrotrichian micro caddisfly  
*Ochrotrichia phenosa* - Deschutes ochrotrichian micro caddisfly  
*Ochrotrichia vertreesi* - Vertree's ochrotrichian micro caddisfly  
*Oligophlebodes mostbento* - Tombstone Prairie caddisfly  
*Oreohelix variabilis* - Dalles Mountain snail  
*Ostrea lurida* - native oyster  
*Philocasca oron* - Clatsop philocascan caddisfly  
*Phyciodes pallida barnesi* - Barnes' crescent butterfly  
*Pisidium ultramontanum* - Oregon pearly mussel  
*Rhyacophila colonus* - Obrien rhyacophilian caddisfly  
*Rhyacophila fenderi* - Fender's rhyacophilian caddisfly  
*Rhyacophila haddocki* - Haddock's rhyacophilian caddisfly  
*Rhyacophila unipunctata* - one-spot rhyacophilian caddisfly  
*Stygobromus hubbsi* - Malheur Cave amphipod  
*Stygobromus oregonensis* - Oregon Cave amphipod  
*Tanypteryx hageni* - montane bog dragonfly  
*Tinodes siskiyou* - Siskiyou caddisfly  
*Trimerotropis helleri* - Helfer's trimerotropis  
*Triodopsis populi* - Hell's Canyon land snail  
*Vespericola columbiana* - Columbia Gorge hesperian

**LIST 4 (Watch)****TAXA CONSIDERED BUT REJECTED****Fish**

*Lampetra ayresi* - river lamprey  
*Lampetra lethophaga* - Pit-Klamath brook lamprey  
*Lampetra richardsoni* - western brook lamprey

**Amphibians**

*Ascaphus truei* - tailed frog  
*Bufo woodhousei* - Woodhouse's toad  
*Rana auroa* - red-legged frog  
*Rana boylei* - foothill yellow-legged frog  
*Rhyacotriton olympicus* - Olympic salamander

**Reptiles**

*Phrynosoma douglassii* - short-horned lizard

**Birds**

*Aegolius acadicus* - northern saw-whet owl  
*Anser albifrons elegans* - tule white-fronted goose  
*Anthus spinolella* - water pipit  
*Aythya collaris* - ring-necked duck  
*Branta canadensis minima* - cackling Canada goose  
*Branta canadensis occidentalis* - dusky Canada goose  
*Bucephala islandica* - Barrow's goldeneye  
*Catharus fuscicollis* - veery  
*Centrocercus urophasianus phaios* - western sage grouse  
*Dryocopus pileatus* - pileated woodpecker  
*Dumetella carolinensis* - gray catbird  
*Grus canadensis tabida* - greater sandhill crane  
*Numenius americanus* - long-billed curlew  
*Otus flammeolus* - flammulated owl  
*Picoides albolarvatus* - white-headed woodpecker  
*Picoides arcticus* - black-backed woodpecker  
*Picoides tridactylus* - three-toed woodpecker  
*Plegadis chihi* - white-faced ibis  
*Podiceps auritus* - horned grebe  
*Sayornis nigricans* - black phoebe  
*Selasphorus sasin* - Allen's hummingbird  
*Setophaga ruticilla* - American redstart  
*Sialia currucoides* - mountain bluebird  
*Sialia mexicana* - western bluebird  
*Sitta pygmaea* - pygmy nuthatch  
*Sphyrapicus thyroideus* - Williamson's sapsucker  
*Sterna caspia* - Caspian tern  
*Strix nebulosa* - great gray owl

**Mammals**

*Lepus townsendii* - white-tailed jackrabbit  
*Ovis canadensis californiana* - California bighorn sheep  
*Ovis canadensis canadensis* - Rocky Mt. bighorn sheep  
*Sorex preblei* - Preble's shrew

**Invertebrates**

*Nebria jeffreyi* - Jeffrey's carabid beetle  
*Nebria labonei* - Wallowa snowfield carabid beetle  
*Nebria steensensis* - Steens Mountain carabid beetle  
*Nebria wallowae* - Wallowa Mountains carabid beetle  
*Pterostichus johnsoni* - Johnson's waterfall carabid beetle  
*Scaphinotus hatchi* - Hatch's snail-eating carabid beetle

**Fish**

*Catostomus microps* - Modoc sucker  
*Catostomus rimiculus* ssp. - Jenny Creek sucker  
*Oncorhynchus clarkii* ssp. - Willow/Whitehorse cutthroat trout  
*Oregonichthys kalawatseti* - Umpqua chub  
*Ptychocheilus umpquae* - Umpqua squawfish  
*Rhinichthys evermanni* - Umpqua dace

**Amphibians**

*Ambystoma tigrinum* - tiger salamander

**Reptiles**

*Coluber constrictor* - racer  
*Gambelia wislizenii* - long-nose leopard lizard  
*Hypsiglena torquata* - night snake  
*Masticophis taeniatus* - striped whipsnake

**Birds**

*Aphelocoma coerulescens nevadae* - Nevada scrub jay  
*Aphelocoma coerulescens oocleptica* - Nicasio scrub jay  
*Bubulcus ibis* - cattle egret  
*Chaetura vauxi* - Vaux's swift  
*Cerorhinca monocerata* - rhinocerus auklet  
*Cygnus buccinator* - trumpeter swan  
*Empidonax alnorum* - alder flycatcher  
*Empidonax minimus* - least flycatcher  
*Falco rusticolus* - gyrfalcon  
*Haematopus bachmani* - black oystercatcher  
*Himantopus mexicanus* - black-necked stilt  
*Parus inornatus zeleptus* - Warner Valley titmouse  
*Phalaenoptilus nuttallii californicus* - California dusky poorwill  
*Ptychoramphus aleuticus* - Cassin's auklet  
*Strix varia* - barred owl  
*Sturnella neglecta* - western meadowlark  
*Thryomanes bewickii atrestrus* - Warner Valley Bewick's wren  
*Tyto alba* - common barn owl

**Mammals**

*Arborimus longicaudus* - red tree vole  
*Bison bison athabascae* - wood bison  
*Lepus californicus* - black-tailed jackrabbit  
*Mirounga angustirostris* - northern elephant seal  
*Ochotona princeps taylori* - Taylor's pika  
*Perognathus longimembris* - little pocket mouse  
*Sorex merriami* - Merriam's shrew  
*Sorex trigonirostris* - Ashland shrew  
*Thomomys bottae detumidus* - Pistol River pocket gopher  
*Thomomys bottae laticeps* - Pacific pocket gopher  
*Thomomys mazama helleri* - Gold Beach pocket gopher  
*Thomomys mazama hesperus* - pocket gopher  
*Thomomys mazama niger* - pocket gopher

**Invertebrates**

*Aegialites californicus* - seacliff beetle  
*Brachypanorpa montanum* - mountain scorpionfly  
*Cryptocercus punctulatus* - wood roach  
*Cychrus rickseckeri* - Ricksecker's snail-eating carabid beetle  
*Dolophilodes oregona* - Oregon dolophilodes caddisfly  
*Lepidostoma fischeri* - Fischer's lepidostoman caddisfly  
*Limnephilus alconura* - Klamath limnephilus caddisfly

## SPECIAL PLANTS

This plant list is an update of the 1989 edition of this book. All status changes for specific taxa reflect new information obtained since then. Both the format and some of the definitions and categories of the lists have been changed to make this booklet more usable. The main body of the text now is an alphabetical listing of all taxa on all the lists. Descriptions of the categories and lists can be found in the Introduction on page two. State distribution is included for all taxa on the Lists in this edition.

At the end of the main list, the various taxa included are listed again by lists. These include a) The USFWS Candidate List with federally listed taxa; b) The ODA Candidate List with state listed taxa; c), List 1; d) List 2; e) List 3; f) List 4; and g) Taxa Considered but Rejected. Details on these lists are included below.

List 1 contains taxa which are endangered or threatened throughout their range or which are presumed extinct. The status of taxa on this list represents its status throughout its range. Species which are extirpated from Oregon are included with an -ex after the List number (1-ex). Taxa known or thought to be extinct throughout their range have an -X following the list number (1-X).

List 2 contains species which are threatened, endangered or possibly extirpated from Oregon, but are more common or stable elsewhere. Taxa extirpated from Oregon are included with an -ex after the List number (2-ex).

List 3 contains species for which more information is needed before status can be determined, but which may be threatened or endangered in Oregon or throughout their range. This is equivalent to the Review List of past editions.

List 4 contains taxa of concern which are not currently threatened or endangered. It includes taxa which are very rare but are currently secure, as well as taxa which are declining in numbers or habitat but are still too common to be proposed as threatened or endangered. This is equivalent to the Watch List of past editions.

Included in the text as Considered but Rejected, are taxa which were included in the 1989 editions, and have been dropped. An entire list of Taxa Considered but Rejected is included as the last List in the plant section. These taxa have been dropped for one of three reasons: 1) they have taxonomic problems serious enough to warrant exclusion from the list (T); 2) they are considered at present to be too common or secure to warrant inclusion on this list (C); or 3) they were originally included on one of the lists because they were suspected to occur in the state, but were dropped because they have never been documented in Oregon (N).

In all of the lists, we have made an effort to include the variety or subspecies which occurs in Oregon. Often this may be the only variety or subspecies from the state, and in the past these may have been included without a

subspecific or varietal name. In this edition, these taxa have been included with an asterisk (\*) following the scientific name. ONHP is interested in information regarding any occurrences of other subspecies or varieties of these taxa found in Oregon.

ONHP is interested in obtaining and computerizing all location data for taxa on Lists 1 and 2. Manual files are maintained for those on List 3 and 4. It is critical that additional information be obtained for List 3 taxa so accurate status determinations can be made. Information on status or occurrences of any species included would be appreciated. Distribution information is based on historical and current reports and is included to aid in searches and to increase general knowledge of these taxa.

635 Capitol Street NE, Salem 97310-0110

or

Herbarium, Department of Botany

Oregon State University, Corvallis 97331

In 1987, the Oregon Legislature passed Senate Bill 533 (unofficially the "Oregon Endangered Species Act") at the urging of the Native Plant Society of Oregon and others in the state's botanical community. This bill, and its accompanying statutes (ORS 564.100-564.135), direct the state Department of Agriculture (ODA) to maintain a strong program to conserve and protect native plant species threatened or endangered with extinction. The Endangered Species Program (now part of the overall Plant Systematics and Conservation Biology Program in ODA's Natural Resources Division) was initiated 1988.

With the exception of ODA's ability to regulate the import, export, and commercial trafficking of threatened and endangered plants (under ORS 564.120), the state's authority concerning these species currently extends only to state-owned or state-leased lands. The statutes do not require private or other government land owners to safeguard species protected by state law, although ODA is ready and willing to work with the owners or managers of these lands in conservation efforts if they request help. To date, there has been excellent cooperation with federal agencies concerning the management of the 19 species currently listed as threatened and endangered by the State of Oregon. In addition, ODA collaborates in the study and evaluation of many other candidate and sensitive taxa.

ODA has developed administrative rules (OAR 603-73-005 through 603-73-100) that specify procedures pursuant to the listing, reclassification, or delisting of plant species by the state as threatened or endangered; the development of regulations and programs intended to assist and direct state land management agencies in their important roles involving native plant protection; and the initiation

of a system of permits for transplanting, scientific study, or collection of threatened or endangered plants. Any person or organization engaging in the collection or study of listed species must register with, and receive a permit from, ODA. Those interested in receiving a copy of these rules can write to ODA in Salem.

The ODA has a policy of working closely with all parties interested in the issues surrounding plant conservation biology. Anyone with questions regarding the State of Oregon's activities and responsibilities concerning threatened and endangered plant species is encouraged to write or call Bob Meinke or Tom Kaye (378-3805 at ODA, 737-4106 at the OSU Herbarium). 3810

### A Brief History of Rare Plant Protection in Oregon by Rhoda M. Love, Past President Native Plant Society of Oregon (NPSO)

When the Federal Endangered Species Act was passed in 1973, the attention of the nation began to focus on this country's rare and endangered plants. That year, the Smithsonian Institution, in Washington, D.C., was directed by Congress to prepare a list of U.S. plant species thought to be extinct or in danger of extinction. In Oregon, Dr. Kenton L. Chambers of the Oregon State University Herbarium in Corvallis began a list of plants rarely collected in Oregon. At about the same time, Jean L. Siddall of Lake Oswego was preparing a list for the Oregon Natural Area Preserves Advisory Committee, of those plants considered rare by Oregon botanists. Chambers and Siddall soon realized that they were examining the same species and pooled their efforts.

In June, 1975, the U.S. Fish and Wildlife Service published the names of nearly 3,000 rare and endangered United States plants in the Federal Register. At about that time, Jean Siddall set up an Advisory Committee of professional taxonomists, and an office called the Oregon Rare and Endangered Plant Project. The Project drew up this state's first list of rare, threatened and endangered plant species. The list, in booklet form, was published by the Oregon Natural Area Preserves Advisory Committee to the State Land Board in 1979. The authors of the book, *Rare, Threatened and Endangered Vascular Plants in Oregon - An Interim Report*, were Jean L. Siddall, Kenton L. Chambers and David H. Wagner of the University of Oregon Herbarium in Eugene. This 1979 document was the forerunner of the book you now hold in your hand.

Shortly after the appearance of this Interim Report in 1979, the Oregon Natural Heritage Program, an office established by the Oregon Field Office of The Nature Conservancy and the state of Oregon in 1975, began a comprehensive computerized data base for Oregon rare plant and animal species. This data base is constantly updated as new information on Oregon's rare plants is received. With the cooperation of NPSO, ODFW, the Oregon Natural Heritage Advisory Council, the Rare and

Endangered Plant Project, USFWS, and state and federal botanists and zoologists, the *Interim Report* was updated and published in July, 1983 as *Rare, Threatened and Endangered Plants and Animals of Oregon*, by the Oregon Natural Heritage Data Base. Subsequent updates were printed in 1985, 1987, and 1989. These books have become essential resources for any individual or agency carrying out land management activities involving rare plants and animals in the state of Oregon.

Another important publication, *Threatened and Endangered Vascular Plants of Oregon, An Illustrated Guide*, by Robert J. Meinke, then a graduate student at Oregon State University, was published by the USFWS in Portland in 1982. Presently out of print, this volume is nevertheless used and prized by Oregon botanists for its botanical drawings and its thorough coverage of many of Oregon's rarest plants.

By the mid-1980's, NPSO realized that the federal listing process for endangered plants was too slow and cumbersome to adequately protect the approximately 100 plant species on Oregon's rare and endangered list. Therefore, in 1985, this non-profit society of amateur and professional botanists from throughout the state, under its legislative chair Esther McEvoy, began drafting state legislation which would afford protection for Oregon's endangered species. The membership of the Native Plant Society rallied in support of this legislative effort. Following the lead of the society's two tireless lobbyists, Esther McEvoy and Julie Kierstead, and with the help of the Oregon Natural Resources Council and a number of supportive legislators, the effort culminated in 1987 with the passage of Oregon Senate Bill 533, the Oregon Endangered Species Act.

In addition to sponsoring and supporting endangered species legislation, NPSO carries on its own rare plant protection program. Members in 11 chapters across the state monitor rare plants in each area, and report findings to the state R&E chair. This information is then incorporated into ONHP's databases. In addition, each chapter has an active schedule of programs, workshops and fieldtrips. New members are always welcome. For information write to:

Membership Chair, NPSO  
2584 NW Savier St.  
Portland, OR 97210

Since the passage of the federal Endangered Species Law in 1973, great strides have been made in Oregon to understand and protect our state's rare plants. Starting two decades ago with the visionary efforts of Kenton Chambers and Jean Siddall, hundreds of individuals and organizations have taken part and still take part in this important effort. The book you hold in your hand represents the combined efforts of these Oregonians who have worked together for many years toward one goal -- to save Oregon's beautiful and unique native flora and fauna from extinction.

Scientific Name Common Name	Physiographic Province; Adjacent States Oregon Counties	FWS Status	ODA Status	ONHP List
<b>VASCULAR PLANTS</b>				
<i>Abronia umbellata</i> Lam. ssp. <i>breviflora</i> (Standl.) Munz * pink sandverbena	CR, SIS; CA Coos, Curr, Doug, Lane	C2	LE	1
<i>Agastache cusickii</i> (Greenm.) Heller Cusick's giant-hyssop	B&R; NV Harn	--	--	2

## **ACKNOWLEDGEMENTS**

---

### **ANIMALS:**

We are indebted to the many individuals who have volunteered their time and knowledge. Without their help this report would not be possible and it is due only to their dedicated work that status determinations can be made. While we can't list them all, we would like to mention several who have been especially helpful:

Vertebrates: Dick Bauer, Chris Carey, Blair Csuti, Rebecca Goggans, Jim Griggs, Bill Haight, Mark Henjum, Bill Hosford, David Marshall, Doug Markle, Hal Weeks, and Jack Williams.

Invertebrates: Paul Hammond, Dan Hilburn, James LaBonte, Ron McCluskey, Dave McCorkle, and Gary Peters.

### **PLANTS:**

Many of the changes made since the last edition of this book in 1989 resulted from comments received at the Rare and Endangered Plant Conference held in Eugene in November, 1990. We thank all conference participants and others who have contributed to this project. Many of the improvements in the information included in this booklet are a result of efforts by the professional botanists of the Oregon Department of Agriculture, the U.S. Forest Service and the Bureau of Land Management, and the amateur botanists of the Native Plant Society of Oregon.

Special thanks go to Kenton Chambers, Professor Emeritus at Oregon State University, who serves as the flowering plant taxonomic arbiter for ONHP and for this publication. David Wagner of the University of Oregon also deserves special recognition for his assistance with this effort.

Information sources and experts for other groups are:

Ferns: Ed Alverson, Frank Lang, and David Wagner.

Liverworts: David Wagner.

Mosses: John Christy, John Davis, Dan Norris, and Wilf Schofield.

Fungi: Joe Ammirati and Jim Trappe

Lichens: John Davis, Trevor Goward, Bruce McCune, Roger Rosentreter, Bruce Ryan, Daphne Stone, and Bill Weber

ANTHONY MEEKER  
State Treasurer

The State Land Board appreciates the effort put forth by The Nature Conservancy, the cooperating state and federal agencies, and all those involved in assembling and managing the Oregon Natural Heritage Program, on behalf of the Oregon Natural Heritage Advisory Council.

This publication will provide an invaluable service to the public in identifying the status of rare, threatened and endangered plants and animals, and for use in facilitating research and monitoring efforts.

Thank you for your hard work and professional analysis.

Sincerely,

Barbara Roberts  
Governor
