ACKNOWLEDGEMENTS

INTRODUCTION

Extinction is a natural process. Today, however, plant and animal species are disappearing world-wide at an accelerated pace. Based on current trends, half of the species on earth will be extinct within the next 100 years. The major cause of this phenomenon is large-scale destruction of native habitats, which has increased since European settlement began in the mid 1800's - in Oregon and throughout the New World.

Once lost, a species can never be recovered, and there is no way of knowing how useful it may have been. We do know that human beings and many of their industries depend on plant and animal products. About 50% of all pharmaceuticals have a natural component as an active ingredient, yet less than one percent of the world's species have been chemically analyzed and tested. Many invertebrates and plants contain undescribed and highly functional compounds. *Limnanthes floccosa* subsp. *grandiflora*, or wooly meadow-foam, a rare plant that grows in southwest Oregon, has been recently found to produce a hybrid with the more common member of the genus, *Limnanthes alba*. This hybrid grows well in the poorly drained soils of the Willamette Valley and produces a valuable oil used for soaps, plastic and rubber production. In addition, the new hybrid meadow-foam does not require the field burning necessary for other crops. This species, and many other Oregon natives, will be lost without intervention. The purpose of this book is to provide land managers, owners and interested parties with a list of those species in Oregon which are in greatest jeopardy.

Oregon State Endangered Species Programs

In 1987, the Oregon Legislature passed an Endangered Species Act which gave the Oregon Department of Agriculture responsibility and jurisdiction over threatened and endangered plants, and reaffirmed the Oregon Department of Fish and Wildlife's responsibility for threatened and endangered animals. Both of these agencies have entered into cooperative (Section 6) agreements with the United States Fish and Wildlife Service for the purpose of carrying out research and conservation programs for animal and plant species under the auspices of the federal Endangered Species Act. The Oregon Natural Heritage Program (ONHP) is in the process of obtaining a similar agreement for invertebrates. More information on the state endangered species programs can be found at the beginning of the animal and plant sections of this book.

The Oregon Natural Heritage Program (ONHP)

ONHP (formerly the Oregon Natural Heritage Data Base) maintains a comprehensive manual and computerized data base on Oregon's rare, threatened and endangered plants, animals and ecosystems. Site-specific information is available at the Program office. Support for this system is based on a cooperative effort between The Nature Conservancy and the Oregon Division of State Lands and the many public agencies which have as a part of their goals and mandates, the identification and protection of sensitive species and their habitats. Indeed, most of the information contained in this booklet was obtained from biologists working for federal or state agencies. These agencies, together with the state's herbaria and museum collections, provide much of the information that comprise ONHP's databases.

This report has been compiled using the most current information available on the distribution and abundance of plants and animals native to Oregon. Although based on a large volume of information, it is by no means complete. Much is known about some species, very little about others. ONHP welcomes additional information or recommendations regarding any of the taxa listed herein. Such information, as well as data requests should be directed to:

Oregon Natural Heritage Program
1205 N.W. 25th Avenue
Portland, Oregon 97210
(503) 229-5078

This publication will be updated every other year. Copies may be obtained at cost (\$5.00 per copy + \$1.50 for shipping and handling, prepaid) from ONHP.

Outline

The book is divided into animal and plant sections. The sections begin with a description of the animal and plant programs in the state and are followed by the main list of animals and plants. For animals, the list is divided into major groups: fish, amphibians, reptiles, mammals, birds, and invertebrates and then arranged alphabetically by scientific name. The plant list is first divided into three groups: vascular plants, non-vascular plants, and fungi & lichens, and then alphabetized by scientific name. The information for each taxa includes common name, county, physiographic province, and adjacent state distribution, the various state and federal status, as well as ONHP status. Distribution abbreviations are listed and explained on the next two pages.

Criteria and Definitions

Inclusion of any given taxon on these lists is based on several specific criteria. The most important factors are the total number of known, extant populations in Oregon and world-wide, and the degree to which they are potentially or actively threatened with destruction. Other criteria include the number of known populations considered to be securely protected, the size of the various populations, and the ability of the taxon to persist at known sites. The taxonomic distinctness of each species also has been considered. Hybrids or questionable, undescribed species have not been included; although undescribed taxa recognized by the scientific community in Oregon are included. Taxonomic experts who were consulted are listed in the acknowledgements on the back inside cover.

Definitions

Endangered taxa are those which are in danger of becoming extinct within the foreseeable future throughout all or a significant portion of their range.

Threatened taxa are those likely to become endangered within the foreseeable future.

LE = Listed Endangered. Taxa listed by the U.S. Fish and Wildlife Service (USFWS) as Endangered under the Endangered Species Act (ESA), or by the Departments of Agriculture (ODA) and Fish and Wildlife (ODFW) of the state of Oregon under the Oregon Endangered Species Act of 1987 (OESA).

LT = Listed Threatened. Taxa listed by the USFWS, ODA, or ODFW as Threatened.

PE = Proposed Endangered. Taxa proposed by the USFWS to be listed as Endangered under the ESA or by ODFW or ODA under the OESA.

PT = Proposed Threatened. Taxa proposed by the USFWS to be listed as Threatened under the ESA or by ODFW or ODA under the OESA.

C1 = Category 1 Candidate. Taxa for which the USFWS has sufficient information to support a proposal to list as Threatened or Endangered under the ESA.

C2 = Category 2 Candidate. USFWS candidates which need additional information in order to propose as Threatened or Endangered under the ESA.

C2* = Possibly Extinct Category 2 Candidate. USFWS candidates which may be extinct.

3A = Extinct Taxa. Taxa for which the USFWS has persuasive evidence of extinction.

3B = Taxonomic problems. Taxa which do not meet the USFWS's definition of a "species".

3C = Taxa which have proven to be more abundant or widespread than previously believed and/or which have no identifiable threats. This status is based only on the most recently published Candidate Notice of Review.

Lists following Animal and Plant Sections

1) **Federal or State Listed Taxa** includes taxa listed or proposed to be listed by the USFWS as Endangered or Threatened under the ESA, based on the January 1, 1989 *Endangered & Threatened Wildlife and Plants*, a special reprint of Federal Register 50 CFR 17.11 & 17.12, and all subsequent Federal Register notices through 8/15/93. For animals this list also includes state listed taxa as Endangered or Threatened by ODFW. State and federal listed plant taxa are included on the same list with state and federal candidate taxa (see below).

2) **Federal C1 and C2 Candidates** for listing under the Endangered Species Act. The animal candidates for both vertebrates and invertebrates are from November 21, 1991 Federal Register, Vol. 56, No. 225; the plants from the February 21, 1990 Federal Register, Vol. 55, No. 35. We have also noted all 3A, 3B, and 3C species, including those dropped since 1990.

3) **Oregon State Candidates** for vertebrates is ODFW's **Sensitive Species List**, provided by the Department's Non-Game and Fisheries Programs in 1993 and for plants is **ODA's Candidate Species List**, dated March, 1991.

4) **Heritage Program Lists** include all taxa from List 1, List 2, List 3, List 4 and those Taxa Considered but Rejected since 1991. Taxa are arranged alphabetically within their respective list. Criteria for these lists are:

List 1 contains taxa that are threatened with extinction or presumed to be extinct throughout their entire range. It is largely consistent with the Listed, Category 1 and 2 species from the USFWS. These species are in need of active protective measures to insure their survival. ONHP tracks all locations of these taxa on computerized and manual files.

List 2 contains taxa that are threatened with extirpation or presumed to be extirpated from the state of Oregon. These are often peripheral or disjunct species which are of concern when considering the floral and faunal diversity within Oregon's borders. They can be very significant when protecting the genetic diversity of a taxon. ONHP, more than the state and federal agencies, regards extreme rarity as a significant threat, and has included species which are very rare in Oregon on this list. ONHP tracks all locations of these taxa on computerized and manual files.

List 3 contains species for which more information is needed before status can be determined, but which may be threatened or endangered in Oregon or throughout their range. This is the Review List from past editions. ONHP maintains manual files for all of these taxa and computerized locational files on selected ones, including all Federal C1 and C2 Candidates.

List 4 contains taxa which are of concern, but are not currently threatened or endangered. This includes taxa which are very rare but are currently secure, as well as taxa which are declining in numbers or habitat but are still too common to be proposed as threatened or endangered. While these taxa currently may not need the same active management attention as threatened or endangered taxa, they do require continued monitoring. ONHP maintains manual files for all of these taxa and computerized locational files on selected ones, including all Federal C1 and C2 Candidates.

Taxa Considered but Rejected contains all taxa deleted from any of the above lists or nominated to these lists but rejected. In the past, we have included many taxa which were only suspected to be in Oregon. These have been dropped in this edition, but can be added to the lists in the future if they become documented in the state. Taxa dropped from the list since the last book (1991) are also included in the main list.

PYSIOGRAPHIC PROVINCE MAP AND DISTRIBUTION INFORMATION

Distribution Information is included on the lists in the following format: Physiographic Province; State (and/or Canadian Province); and County. Out-of-state distribution information is complete for plant and animal taxa on ONHP List 1 (which are usually Oregon or regional endemics). For all other taxa, adjacent states or the closest state with occurrences will be listed; a plus (+) signifies that the taxa is found in additional states. Taxa with no other states noted are Oregon endemics. For the most part, the Physiographic Province, County and State distribution is based on both historic and current information. Any additional input on distribution will be incorporated in future updates of this book.

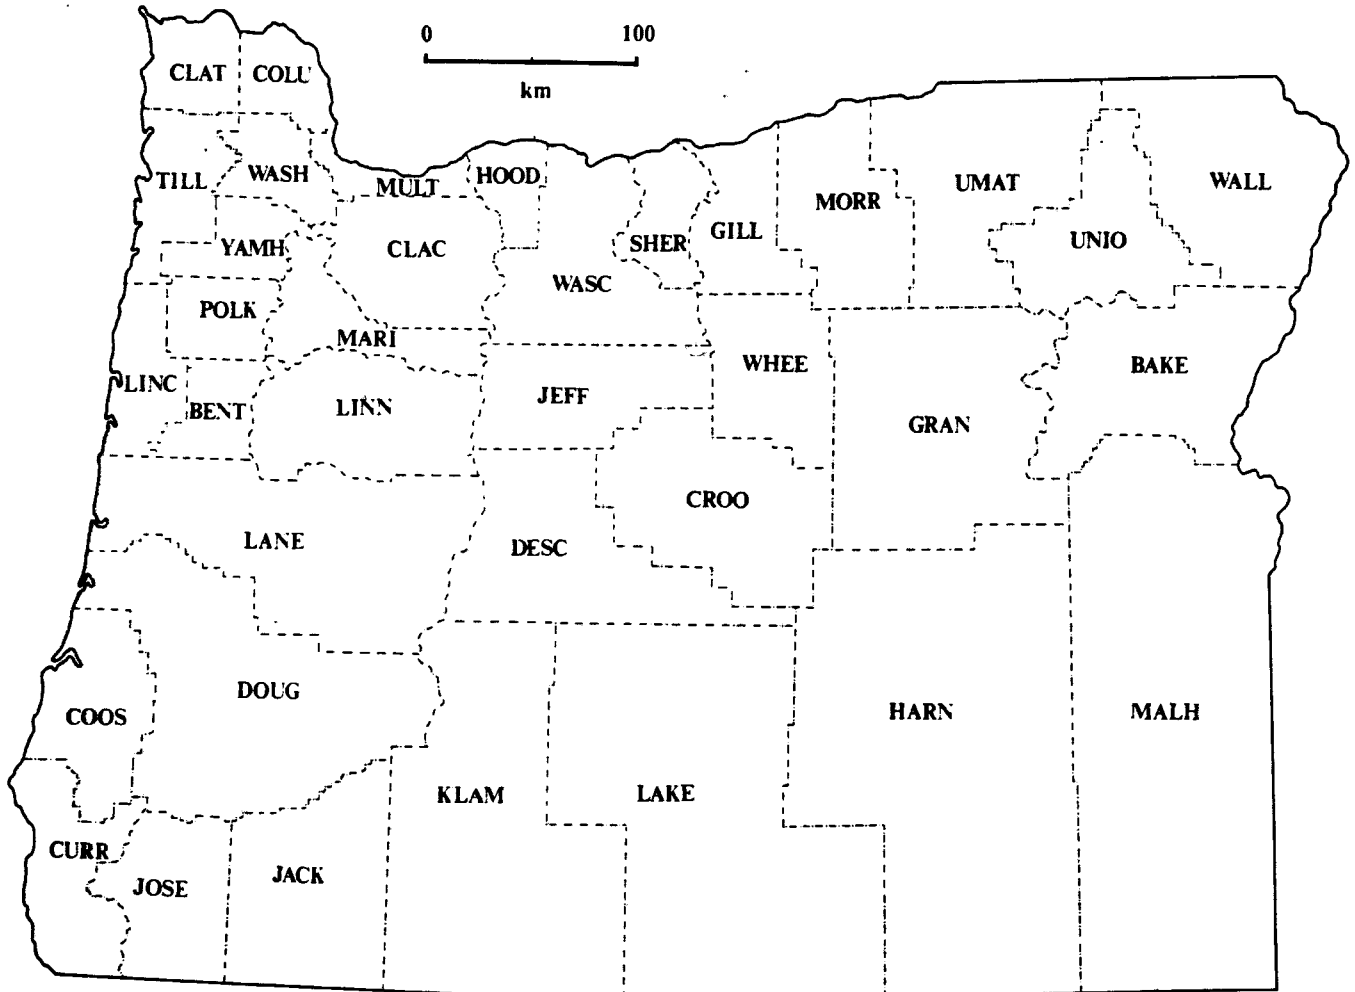

Physiographic Province occurrences for each species is keyed to the base map below. This map divides the state into ten distinct biomes based on geologic and vegetative patterns. It is modified from the 1973 publication *Natural Vegetation of Oregon and Washington* by Franklin and Dyrness, and matches maps in the *Oregon Nongame Plan* (1986) and the *Oregon Natural Heritage Plan* (1988). The provinces are CR=Oregon Coast Range, WV=Western Oregon Interior Valleys, KM=Siskiyou Mountains, WC=West Side & Crest, Oregon Cascades, EC=East Side Oregon Cascades, BM=Ochoco, Blue & Wallowa Mountains, BR=Basin and Range, HP=High Lava Plains, OU=Owyhee Uplands, and CB=Columbia Basin.

COUNTY MAP AND DISTRIBUTION INFORMATION (cont.)

County distribution is keyed to the base map on the bottom half of this page. The abbreviations are made from the first four letters of each county name. The county names are: Baker, Benton, Clackamas, Clatsop, Columbia, Coos, Crook, Curry, Deschutes, Douglas, Gilliam, Grant, Harney, Hood River, Jackson, Jefferson, Josephine, Klamath, Lake, Lane, Lincoln, Linn, Malheur, Marion, Morrow, Multnomah, Polk, Sherman, Tillamook, Umatilla, Union, Wallowa, Wasco, Washington, Wheeler, Yamhill. The county information included is based on data from ONHP files. Please notify us of mistakes or omissions.

State and Canadian Province distribution is included on the lists primarily to alert biologists to the distribution of these rare, threatened, and endangered taxa in adjacent states. The distribution for the more wide ranging species in states not adjacent to Oregon is primarily based on published information and may not be complete. The two-letter postal abbreviation is used to identify states. The adjacent states include: CA=California, ID=Idaho, NV=Nevada, and WA=Washington. Only five Canadian provinces were abbreviated in the lists: AB=Alberta, BC=British Columbia, ON=Ontario, QU=Quebec, and SK=Saskatchewan.

SPECIAL ANIMALS

The Main List of special animals includes rare, threatened and endangered vertebrate and invertebrate species that are native to Oregon and that have (or have had) sustained breeding populations within the state.

This list includes Federal and State listed species and federal candidate species, including several species that are presently considered invalid species or have undergone taxonomic revision (Pistol River pocket gopher (*Thomomys bottae detumidus*), Willow/Whitehorse cutthroat trout (*Oncorhynchus clarki* ssp.)). This main listing of animals does not include open-ocean mammals or sea turtles which generally occur offshore and do not breed in Oregon. All Federal and State listed marine species are, however, included in the individual summary of Federal and State listed species.

The main listing of animal species is divided into 6 groups (fish, amphibians, reptiles, birds, mammals, invertebrates), arranged alphabetically by genus within each grouping. For each species, we have noted the federal status (USFWS), state status (ODFW) and Heritage List ranking (ONHP), as well as its distribution by physiographic province and county in Oregon, and also its presence in adjacent states. In the Main List, we have abbreviated ODFW's sensitive species categories as follows: SC=Critical, SV=Vulnerable, SP=Peripheral or naturally rare, and SU=Undetermined status. Separate lists summarizing federal and state listed species, federal candidate species (C1 & C2), ODFW's state sensitive species and species noted on Lists 1, 2, 3, and 4 of the Heritage Program follow the main listing of animal species.

For the ONHP Lists, the status of the avian species refers to the breeding populations. Some species may be common in winter or migration but rare as breeders in Oregon, and in these instances it is only the breeding populations that are of concern (i.e. harlequin duck, bufflehead, common loon). There are several bird species that have nested in Oregon on occasion (semipalmated plover, black-chinned sparrow, solitary sandpiper), but may not yet be considered established breeding populations. For now, these species are included on the List 3 (Review List) pending more accurate determination of their breeding status.

ONHP Lists also includes wintering populations for those avian species which are present year round and have extremely sensitive, threatened or otherwise vulnerable populations (bald eagle, snowy plover). Otherwise, species that occur in Oregon in migration or as winter residents only are not considered here, except in instances where a species is of an especially sensitive nature with critical staging or wintering locations (i.e. Aleutian Canada goose, brown pelican). Those species of accidental occurrence are not included (snowy owl, red-shouldered hawk).

Compilation of the invertebrate lists has been especially difficult. Little is known about the status and distribution of most invertebrate taxa found in Oregon, particularly those which may be rare, threatened or otherwise vulnerable. The Oregon Natural Heritage Program has been granted limited

authority for invertebrates through a cooperative agreement with the U.S. Fish and Wildlife Service. It is our hope that in cooperation with State and Federal agencies we can assist and coordinate efforts to gather information and better ascertain the status of rare, threatened and endangered invertebrate populations in Oregon.

A key programmatic objective of the ONHP is to serve as a clearinghouse of information regarding site specific location of rare, threatened and endangered species in Oregon. Our intent is to obtain and computerize locational information for all State and Federal listed animal species, as well as all Federal candidate species (C1 & C2). We also computerize location data of other animal species that we believe are rare (of limited abundance or restricted distribution), threatened, endangered or otherwise vulnerable in Oregon.

Generally, the ONHP maintains computerized information for all animal species on ONHP Lists 1 and 2, as well as selected species on lists 3 and 4 that have Federal candidate status or that we believe are otherwise rare or of special concern in Oregon. In the Main List, we have placed an asterisk (*) adjacent to the ONHP status for each species for which site specific computerized information is maintained. Additionally, we maintain manual files for all animal species noted herein. We encourage and welcome the submission of information, reports and observations on all of the special animal species noted on the Federal, State and Heritage Program lists.

Oregon's Threatened and Endangered Species Program - ODFW

Claire Puchy, Wildlife Diversity Program Leader
Hal Weeks, T & E Fish Program Leader
Martin Nugent, T & E Wildlife Program Leader

The Oregon Department of Fish and Wildlife (ODFW) maintains a list of threatened and endangered species under the authority of ORS 496.172, the Oregon Endangered Species Act, 1987. The list included in this booklet reflects ODFW's revisions as of June 1993. There are currently 32 species on the list. The Act requires the department to develop programs for the management and protection of listed species. A typical program is to include inventories and status surveys and management recommendations that will facilitate recovery and eventual delisting of the animal. The Oregon Fish and Wildlife Commission has adopted administrative rules, OAR 635-100-100 to 130, which clarify the Act and provide criteria for listing, delisting and protection of listed species.

The Oregon Fish and Wildlife Commission has also adopted a rule requiring the department to develop and maintain a state list of Sensitive Species for vertebrates in the state. The rule is OAR 635-100-040. Sensitive species constitute naturally-reproducing native vertebrates which are likely to become threatened or endangered throughout all or a significant portion of their range in Oregon. The Sensitive Species list is for the express purpose of encouraging actions that will prevent further decline in species' populations and/or habitats

and thus avoiding the need for listing. This list is updated biennially. Anyone may request that a species be added to or removed from the list by writing to the department and providing justification for the requested action.

Sensitive species are broken into four categories defined as follows:

CRITICAL (SC)

Species for which listing as threatened or endangered is pending; or those for which listing as threatened or endangered may be appropriate if immediate conservation actions are not taken. Also considered critical are some peripheral species which are at risk throughout their range, and some disjunct populations.

VULNERABLE (SV)

Species for which listing as threatened or endangered is not believed to be imminent and can be avoided through continued or expanded use of adequate protective measures and monitoring. In some cases the population is sustainable, and protective measures are being implemented; in others, the population may be declining and improved protective measures are needed to maintain sustainable populations over time.

PERIPHERAL OR NATURALLY RARE (SP)

Peripheral species refer to those whose Oregon populations are on the edge of their range. Naturally rare species are those which had low population numbers historically in Oregon because of naturally limiting factors. Maintaining the status quo for the habitats and populations of these species is a minimum requirement. Disjunct populations of several species which occur in Oregon should not be confused with peripheral.

UNDETERMINED STATUS (SU)

Animals in this category are species for which status is unclear. They may be susceptible to population decline of sufficient magnitude that they could qualify for endangered, threatened, critical or vulnerable status, but scientific study will be required before a judgement can be made.

All efforts towards management and protection of threatened, endangered and sensitive species in Oregon will be coordinated with other state and federal agencies and private conservation organizations. Copies of the Oregon Endangered Species Act or administrative rules, or the Sensitive Species rule, or additional lists of the threatened and endangered or sensitive species may be requested from the department by writing to:

Reptiles

<i>Chrysemys picta</i> painted turtle	WV, BM, CB; ID, WA + Bake, Colu, Hood, Mari, Morr, Mult, Sher, Umat, Unio, Wall, Wasc, Yamh	--	SC	3*
<i>Clemmys marmorata marmorata</i> northwestern pond turtle	CR, WV, KM, WC, EC; CA, WA Bent, Clac, Coos, Curr, Doug, Jack, Jose, Klam, Lane, Linn, Mari, Mult, Till, Wash, Yamh	C2	SC	2*
<i>Contia tenuis</i> sharptail snake	CR, WV, KM, WC, CB; CA, WA Bent, Curr, Doug, Jack, Jose, Lane, Linn, Polk, Till	--	SV	4*
<i>Crotaphytus bicinctores</i> desert-collared lizard	BR, OU; CA, ID, NV + Harn, Malh	--	SV	3*
<i>Lampropeltis getula</i> common kingsnake	WV, WC; CA, NV + Doug, Jack, Jose	--	SV	3*
<i>Lampropeltis zonata</i> California mountain kingsnake	WV, KM, WC, EC; CA, WA Curr, Doug, Jack, Jose, Wasc	--	SV	3*
<i>Phrynosoma douglassii</i> (short-horned lizard)	- Dropped from list; too common.			
<i>Phrynosoma platyrhinos</i> desert horned lizard	BM, BR, OU; CA, ID, NV + Bake, Harn, Lake, Malh	--	SV	3*
<i>Sonora semiannulata</i> western ground snake	OU; ID, NV + Malh	--	SP	3*

Birds

<i>Accipiter gentilis</i> northern goshawk	KM, WC, EC, BM, BR, HP; CA, ID, WA, NV + Bake, Clac, Croo, Desc, Doug, Gran, Harn, Hood, Jack, Jeff, Klam, Lake, Lane, Malh, Mari, Morr, Umat, Unio, Wall, Wasc, Whee	C2	SC	3*
<i>Aegolius acadicus</i> (northern saw-whet owl)	Dropped from list; too common.			
<i>Aegolius funereus</i> boreal owl	EC, BM; ID, WA + Desc, Wall?	--	--	3*
<i>Agelaius tricolor</i> tricolored blackbird	WV, KM, EC; CA Jack, Klam, Mult	C2	SP	2*

Scientific Name Common Name	Physiographic Province; Adjacent States Oregon Counties	FWS Status	ODFW Status	ONHP List
<i>Ammodramus savannarum</i> grasshopper sparrow	WV, CB; CA, ID, NV, WA + Doug, Gill, Jack, Jose, Lane, Umat, Whee	--	SU	3*
<i>Amphispiza bilineata</i> black-throated sparrow	BR; CA, NV + Harn, Lake	3C	--	3*
<i>Anser albifrons elgasi</i> tule white-fronted goose	EC, BM, BR; CA + Klam, Harn, Lake, Unio	3C	--	4
<i>Anthus spinoletta</i> (water pipit)	Dropped from list; too common.			
<i>Archilochus alexandri</i> black-chinned hummingbird	WC, BM, BR; CA, ID, NV, WA + Gran, Harn, Jack, Lake, Wall	--	--	3*
<i>Athene cunicularia</i> burrowing owl	WV, EC, HP, BR, BM, OU, CB; ID + Bake, Croo, Desc, Gill, Gran, Harn, Jeff, Klam, Lake, Malh, Morr, Sher, Umat, Unio, Wall, Wasc, Whee	--	SC	3*
<i>Aythya affinis</i> lesser scaup	EC, BR, HP, OU; CA, ID, NV, WA + Desc, Harn, Klam, Lake, Malh	--	--	4*
<i>Aythya collaris</i> ring-necked duck	WC, EC, BM, BR, HP; CA, ID, WA + Bake, Clac, Desc, Harn, Klam, Lake, Unio	--	--	4
<i>Bartramia longicauda</i> upland sandpiper	BM, BR; ID, WA + Croo, Gran, Klam, Lake, Umat, Unio	--	SC	2*
<i>Brachyramphus marmoratus</i> marbled murrelet	CR, KM; CA, WA + Bent, Clack, Coos, Curr, Doug, Lane, Linc, Till	LT	SC	1*
<i>Branta canadensis leucopareia</i> Aleutian Canada goose (wintering)	CR, KM; CA, AK Coos, Curr, Till	LT	LE	1*
<i>Branta canadensis minima</i> cackling Canada goose (wintering)	CR, WV, EC; CA, WA +; Colu, Curr, Bent, Lane Lane, Linn, Mari, Mult, Polk, Till, Wash, Yamh	--	--	4
<i>Branta canadensis occidentalis</i> dusky Canada goose (wintering)	CR, WV; WA + Bent, Colu, Lane, Linn, Mari, Polk, Till, Yamh, Wash	--	--	4
<i>Bucephala albeola</i> bufflehead	WC, EC; ID, WA + Desc, Doug, Jeff, Klam, Mari	--	SP	2*
<i>Bucephala islandica</i> Barrow's goldeneye	WC, EC; ID, WA + Clac, Desc, Doug, Jeff, Hood, Klam, Lane, Linn, Mari	--	SP	4*
<i>Buteo regalis</i> ferruginous hawk	BM, BR, HP, OU, CB; CA, ID, NV, WA +; Bake, Croo, Gran, Gill, Harn, Malh, Morr, Umat, Unio, Wall	C2	SC	3*
<i>Buteo swainsoni</i> Swainson's hawk	BM, BR, HP, OU, CB; CA, ID, NV, WA + Bake, Croo, Gill, Gran, Harn, Jeff, Lake, Malh, Morr, Sher, Whee	3C	SV	3*
<i>Casmerodius albus</i> great egret	CR, EC, BR; CA, NV + Coos, Harn, Klam, Lake	--	SU	4*
<i>Catharus fuscescens</i> veery	BM, BR, OU; ID, NV, WA +; Bake, Croo Gran, Harn, Malh, Morr, Umat, Unio, Wall, Whee	--	--	4*
<i>Centrocercus urophasianus phaios</i> western sage grouse (northeast populations)	EC, BM, HP; CA, ID, NV, WA + Bake, Croo, Desc	C2	SV	2*
<i>Centrocercus urophasianus phaios</i> western sage grouse (southeast populations)	BR, OU; CA, ID, NV, WA + Harn, Klam, Lake, Malh	C2	--	3*
<i>Charadrius alexandrinus nivosus</i> western snowy plover (coastal populations)	CR, KM; CA, WA + Clat, Coos, Curr, Doug, Lane, Linc, Till	LT	LT	1*
<i>Charadrius alexandrinus nivosus</i> western snowy plover (interior populat.)	EC, BR; CA, ID, NV + Harn, Klam, Lake	C2	LT	2*
<i>Charadrius semipalmatus</i> (semipalmated plover)	Considered but rejected; not established as a breeding population.			

Scientific Name Common Name	Physiographic Province; Adjacent States Oregon Counties	FWS Status	ODFW Status	ONHP List
<i>Chlidonias niger</i> black tern	EC, BR; CA, ID, NV, WA + Bake, Harn, Klam, Lake, Malh, Unio	C2	--	4*
<i>Coccyzus americanus</i> yellow-billed cuckoo	EC, BM, BR, OU; CA, ID, NV + Desc, Harn, Lake, Malh, Unio	3B	SC	2*
<i>Coturnicops noveboracensis</i> yellow rail	EC; CA + Klam, Lake	--	SC	2*
<i>Cypseloides niger</i> black swift	WC; CA, WA + Lane	--	SP	3*
<i>Dendragapus canadensis</i> spruce grouse	BM; ID, WA + Bake, Wall, Whee	--	SU	3*
<i>Dolichonyx oryzivorus</i> bobolink	BM, BR, HP; ID, WA + Bake, Harn, Unio, Wall	--	SV	4*
<i>Dryocopus pileatus</i> pileated woodpecker (eastern populations)	EC, BM; CA, WA + all but Gill	--	SC	3*

FEDERAL CANDIDATE AND PROPOSED ANIMAL SPECIES

Fish

Catostomus occidentalis lacusanserinus - Goose Lake sucker
Catostomus rimiculus ssp. - Jenny Creek sucker
Catostomus snyderi - Klamath largescale sucker
Cottus bairdi ssp. - Malheur mottled sculpin
Cottus tenuis - slender sculpin
Gila alvordensis - Alvord chub
Gila bicolor ssp. - Catlow tui chub
Gila bicolor ssp. - Summer Basin tui chub (C1)
Gila bicolor eurysona - Sheldon tui chub
Gila bicolor oregonensis - Oregon Lakes tui chub
Hesperoleucus symmetricus mitrulus - California roach
Lampetra tridentata ssp. - Goose Lake lamprey
Oncorhynchus clarki ssp. - Willow/Whitehorse cutthroat trout
Oncorhynchus mykiss gibbsi - inland redband trout
Oncorhynchus mykiss ssp. - Catlow Valley redband trout
Oncorhynchus mykiss ssp. - Goose Lake redband trout
Oncorhynchus mykiss ssp. - Warner Valley redband trout
Oregonichthys crameri - Oregon chub (PE)
Oregonichthys kalawatseti - Umpqua chub
Salvelinus confluentus - bull trout

Amphibians

Plethodon elongatus - Del Norte salamander
Plethodon larselli - Larch Mountain salamander
Plethodon stormi - Siskiyou Mountain salamander
Rana aurora aurora - northern red-legged frog
Rana boylei - foothill yellow-legged frog
Rana cascadae - Cascade frog
Rana mucosa - mountain yellow-legged frog
Rana pretiosa - spotted frog (C1) western Oregon
Rana pretiosa - spotted frog (C2) eastern Oregon

Reptiles

Clemmys marmorata marmorata - northwestern pond turtle

Birds

Accipiter gentilis - northern goshawk
Agelaius tricolor - tricolored blackbird
Buteo regalis - ferruginous hawk
Centrocercus urophasianus phaios - western sage grouse
Charadrius alexandrinus nivosus - western snowy plover
(interior populations)
Chlidonias niger - black tern
Histrionicus histrionicus - harlequin duck
Ixobrychus exilis hesperis - western least bittern
Lanius ludovicianus - loggerhead shrike
Oreortyx picta - mountain quail
Plegadis chihi - white-faced ibis
Tympanuchus phasianellus columbianus - Columbian sharp-tailed grouse

Mammals

Arborimus (= *Phenacomys*) *albipes* - white-footed vole
Brachylagus idahoensis - pygmy rabbit
Euderma maculatum - spotted bat
Felis lynx canadensis - North American lynx
Gulo gulo luteus - California wolverine
Martes pennanti pacifica - Pacific fisher

Ovis canadensis californiana - California bighorn sheep
Plecotus townsendii townsendii - Pacific (=Townsend's) western big-eared bat
Sorex preblei - Preble's shrew
Thomomys mazama helleri - Gold Beach western pocket gopher
Thomomys umbrinus (= *bottae*) *detumidus* - Pistol River pocket gopher

Invertebrates

Acneus beeri - Beer's false water penny beetle
Acneus burnelli - Burnell's false water penny beetle
Agapetus denningi - Denning's agapetus caddisfly
Agonum belleri - Beller's ground beetle
Algomorda newcombiana (*Littorina subrotunda*) - Newcomb's littorine snail
Anodonta californiensis - California floater
Apatania (= *Radema*) *tavala* - Cascades apatanian caddisfly
Apoththionius malheuri - Malheur pseudoscorpion
Bombus franklini - Franklin's bumblebee
Ceraclea (= *Athripsodes*) *vertreesi* - Vertree's ceracleon caddisfly
Chloealtis aspasma - Siskiyou chloealtis grasshopper
Cryptochia neosa - Blue Mountains cryptochian caddisfly
Eobrachycentrus gelidae - Mt. Hood primitive caddisfly
Farula davisi - Green Springs Mountain farulan caddisfly
Farula jewetti - Mt. Hood farulan caddisfly
Farula reaperi - Tombstone Prairie farulan caddisfly
Fluminicola (= *Lithoglyphus*) *columbianus* - Columbia pebblesnail (= great Columbia River spire snail)
Goeracea oregona - sagehen creek goeracean caddisfly
Homoplectra schuhi - Schuh's homoplectran caddisfly
Hydropsyche abella - Abellan hydropsyche caddisfly
Icaricia icarioides fenderi - Fender's blue butterfly
Kenkia rhynchida - planarian, no common name
Lepidostoma goedeni - Goeden's lepidostoman caddisfly
Limnephilus atercus - Fort Dick limnephilus caddisfly
Megascolides macelfreshi - Oregon giant earthworm
Monadenia fidelis minor - Oregon snail
Nemoura wahkeena - Wahkeena Falls flightless stonefly
Neothremma andersoni - Columbia Gorge caddisfly
Ochrotrichia phenosa - Deschutes ochrotrichian micro caddisfly
Ochrotrichia vertreesi - Vertree's ochrotrichian micro caddisfly
Oligophlebodes mostbento - Tombstone Prairie caddisfly
Philocasca oron - Clatsop philocascan caddisfly
Pisidium ultramontanum - Oregon pearly mussel
Pterostichus rothi - Roth's blind ground beetle
Rhyacophila colonus - Obrien rhyacophilan caddisfly
Rhyacophila haddocki - Haddock's rhyacophilan caddisfly
Rhyacophila unipunctata - one-spot rhyacophilan caddisfly
Stygobromus hubbsi - Malheur Cave amphipod
Tinodes siskiyou - Siskiyou caddisfly

Unless otherwise noted, all species are C2

Fish

- Catostomus occidentalis lacusanserinus* - Goose Lake sucker (C)
Catostomus rimiculus ssp. - Jenny Creek sucker (P)
Catostomus tahoensis - Tahoe sucker (P)
Cottus bairdi ssp. - Malheur mottled sculpin (C)
Cottus marginatus - margined sculpin (V)
Cottus pitensis - Pit sculpin (P)
Gila alvordensis - Alvord chub (V)
Gila bicolor ssp. - Catlow tui chub (V)
Gila bicolor ssp. - Summer Basin tui chub (C)
Gila bicolor ssp. - Warner Basin tui chub (C)
Gila bicolor eurysoma - Sheldon tui chub (C)
Gila bicolor oregonensis - Oregon Lake tui chub (V)
Gila bicolor thalassina - Goose Lake tui chub (C)
Hesperoleucus symmetricus mitrulus - California (pit) roach (P)
Lampetra tridentata - Pacific lamprey (V)
Lampetra tridentata ssp. - Goose Lake lamprey (C)
Oncorhynchus clarki - coastal cutthroat trout; Columbia Basin anadromous run (C)
Oncorhynchus clarki lewesi - westslope cutthroat trout (V)
Oncorhynchus keta - chum salmon (C)
Oncorhynchus kisutch - coho salmon, lower Columbia River runs (below Bonneville) (C)
Oncorhynchus kisutch - coho salmon, south Coast (south of Bandon) runs (C)
Oncorhynchus mykiss ssp. - inland redband trout, all populations east of Cascade Crest except main stem Deschutes River (V)
Oncorhynchus tshawytscha ssp. - fall chinook salmon, lower Columbia River (downstream of Bonneville) runs (C)
Oncorhynchus tshawytscha ssp. - fall chinook salmon, Snake River Basin runs (C)
Oncorhynchus tshawytscha ssp. - fall chinook, south Coast runs (C)
Oncorhynchus tshawytscha ssp. - spring chinook salmon, Snake River Basin runs (C)
Oregonichthys crameri - Oregon chub (Willamette) (C)
Oregonichthys kalawatsai - Umpqua chub (V)
Rhinichthys cataractae ssp. - Millicoma dace (P)
Richardsonius egregius - Lahontan reddsie (P)
Salvelinus confluentus - bull trout (C)

Amphibians

- Ambystoma tigrinum melanostictum* - blotched tiger salamander (U)
Aneides ferrus - clouded salamander (U)
Aneides flavipunctatus - black salamander (P)
Ascaphus truei - tailed frog (V)
Batrachoseps attenuatus - California slender salamander (P)
Batrachoseps wrighti - Oregon slender salamander (V)
Bufo boreas - western toad (V)
Dicamptodon copei - Cope's giant salamander (U)
Plethodon elongatus - Del Norte salamander (V)
Plethodon larselli - Larch Mountain salamander (V)
Plethodon stormi - Siskiyou Mountain salamander (V)
Rana aurora - red-legged frog (U)
Rana boylei - foothill yellow-legged frog (V)
Rana cascadae - Cascade frog (V)

- Rana pipiens* - leopard frog (V)
Rana pretiosa - spotted frog (east of the Cascades) (U)
Rana pretiosa - spotted frog (west of the Cascades) (C)
Rhyacotriton cascadae - Cascade seep salamander (V)
Rhyacotriton kezeri - Columbia seep salamander (V)
Rhyacotriton variegatus - southern seep salamander (V)

Reptiles

- Chrysemys picta* - painted turtle (C)
Clemmys marmorata marmorata - northwestern pond turtle (C)
Contia tenuis - sharptail snake (V)
Crotaphytus bicinctores - desert-collared lizard (V)
Lampropeltis getula - common kingsnake (V)
Lampropeltis zonata - California mountain kingsnake (V)
Phrynosoma platyrhinos - desert horned lizard (V)
Sonora semiannulata - western ground snake (P)

Birds

- Accipiter gentilis* - northern goshawk (C)
Agelaius tricolor - tricolored blackbird (P)
Ammodramus savannarum - grasshopper sparrow (U)
Athene cucularia - burrowing owl (WV, BM, CB only) (C)
Bartramia longicauda - upland sandpiper (C)
Brachyramphus marmoratus - marbled murrelet (C)
Bucephala albeola - bufflehead (breeding) (P)
Bucephala islandica - Barrow's goldeneye (breeding) (P)
Buteo regalis - ferruginous hawk (C)
Buteo swainsoni - Swainson's hawk (V)
Casmerodias albus - great egret (U)
Centrocercus urophasianus - sage grouse (EC, BM, CB) (V)
Coccyzus americanus - yellow-billed cuckoo (C)
Coturnicops noveboracensis - yellow rail (C)
Cypseloides niger - black swift (P)
Dendragapus canadensis - spruce grouse (U)
Dolichonyx oryzivorus - bobolink (V)
Dryocopus pileatus - pileated woodpecker (eastern populations) (C)
Dryocopus pileatus - pileated woodpecker (western populations) (V)
Egretta thula - snowy egret (breeding) (V)
Eremophila alpestris strigata - streaked horned lark (WV) (U)
Glaucidium gnoma - northern pygmy owl (U)
Grus canadensis tabida - greater sandhill crane (V)
Histrionicus histrionicus - harlequin duck (breeding) (P)
Ixobrychus exilis - least bittern (P)
Lanius ludovicianus - loggerhead shrike (U)
Larus pipixcan - Franklin's gull (P)
Leucosticte arctoa atrata - black rosy finch (BR) (P)
Melanerpes formicivorus - acorn woodpecker (U)
Melanerpes lewis - Lewis woodpecker (WV, WC, EC, CB) (C)
Oceanodroma furcata - fork-tailed storm-petrel (breeding) (V)
Otus flammeolus - flammulated owl (C)
Pelecanus erythrorhynchos - American white pelican (breeding) (V)
Picoides albolarvatus - white-headed woodpecker (C)
Picoides arcticus - black-backed woodpecker (C)

ODFW SENSITIVE SPECIES LIST (Cont.)

Picoides tridactylus - three-toed woodpecker (C)
Plegadis chihi - white-faced ibis (V)
Podiceps auritus - horned grebe (breeding) (P)
Podiceps grisegena - red-necked grebe (breeding) (C)
Pooecetes gramineus - vesper sparrow (WV) (U)
Progne subis - purple martin (C)
Riparia riparia - bank swallow (U)
Sialia mexicana - western bluebird (CR, WV, WC) (V)
Sitta pygmaea - pigmy nuthatch (V)
Sphyrapicus thyroideus - Williamson's sapsucker (U)
Strix nebulosa - great gray owl (V)

Mammals

Antrozous pallidus - pallid bat (V)
Bassariscus astutus - ringtail (U)
Brachylagus idahoensis - pygmy rabbit (V)
Eumetopias jubatus - northern (Steller) sea lion (V)
Lepus townsendii - white-tailed jackrabbit (U)
Martes americana - marten (C)
Martes pennanti - fisher (C)
Myotis thysanodes - fringed (myotis) bat (V)
Phenacomys albipes - white-footed vole (U)
Plecotus townsendii - Townsend's big-eared bat (C)
Spermophilus washingtoni - Washington ground squirrel (C)

C = Critical
(for further explanation of status, see p. 7)

V = Vulnerable

P = Peripheral or Naturally Rare

U = Undetermined Status

Greater sandhill crane (*Grus canadensis tabida*) drawn by Jay Miner

Fish

Catostomus warnerensis - Warner sucker
Chasmistes brevirostris - shortnose sucker
Deltistes luxatus - Lost River sucker
Gila bicolor ssp. - Hutton Springs tui chub
Gila bicolor ssp. - Summer Basin tui chub
Gila boraxobius - Borax Lake chub
Lampetra minima - Miller Lake lamprey
Oncorhynchus clarki ssp. - Alvord cutthroat trout
Oncorhynchus clarki henshawi - Lahontan cutthroat trout
Oncorhynchus clarki lewisi - westslope cutthroat trout
Oncorhynchus kisutch ssp. - coho salmon, Columbia River runs
Oncorhynchus kisutch ssp. - coho salmon, south Coast runs
Oncorhynchus nerka ssp. - sockeye salmon, Snake River runs
Oncorhynchus tshawytscha ssp. - fall chinook salmon, Snake River runs
Oncorhynchus tshawytscha ssp. - spring/summer chinook salmon, Snake River runs
Oregonichthys crameri - Oregon chub
Rhinichthys osculus ssp. - Foskett speckled dace

Amphibians

Batrachoseps wrighti - Oregon slender salamander
Rana pretiosa - spotted frog (west of Cascades)

Birds

Brachyramphus marmoratus - marbled murrelet
Branta canadensis leucopareia - Aleutian Canada goose
Charadrius alexandrinus nivosus - western snowy plover (coastal populations)
Falco peregrinus anatum - American peregrine falcon
Gymnogyps californianus - California condor
Haliaeetus leucocephalus - bald eagle
Strix occidentalis caurina - northern spotted owl
Tympanuchus phasianellus columbianus - Columbian sharp-tailed grouse

Mammals

Myotis thysanodes ssp. - fringed bat
Odocoileus virginianus leucurus - Columbian white-tailed deer
Ursus arctos - grizzly bear

Invertebrates

Acetropis americana - American acetropis grass bug
Anodonta wahlametensis - Willamette floater
Apochthonius malheuri - Malheur pseudoscorpion
Bombus franklini - Franklin's bumblebee
Charidryas acastus dorotheae - Dorothy's acastus checkerspot butterfly
Deroceras hesperium - evening fieldslug
Euphydryas editha taylori - Taylor's checkerspot butterfly
Fluminicola sp. - Three Forks hydrobiid snail
Fluminicola sp. 1 - nerite pebblesnail

Fluminicola sp. 2 - toothed pebblesnail
Fluminicola sp. 3 - diminutive pebblesnail
Fluminicola sp. 4 - Fall Creek pebblesnail
Grylloblatta sp. nov. - Mary's Peak ice cricket
Helisoma (Carinifex) newberryi newberryi - Great Basin ramshorn
Helminthoglypta hertleini - Oregon shoulderband
Hemphillia malonei - Malone jumping-slug
Hochbergellus hirsutus - Sisters hesperian
Icaricia icarioides fenderi - Fender's blue butterfly
Juga acutifilosa - scalloped juga snail
Juga bulbosa - bulb juga
Juga hemphilli hemphilli - barren juga
Juga hemphilli dallesensis - Dalles juga
Juga hemphilli maupinensis - Deschutes juga
Juga sp. nov. - Oak Springs juga
Juga sp. nov. - striped juga
Juga (Oreobasis) sp. nov. - three-band juga
Juga (Oreobasis) sp. nov. - Opal Springs juga
Lanx klamathensis - scale lanx
Lanx subrotunda - rotund lanx
Lygus oregonae - Oregon lygus bug
Lyogyrus sp. nov. - nodose dusksnail
Lyogyrus sp. nov. - Link River dusksnail
Lyogyrus sp. - topaz dusksnail
Megascolides macelfreshi - Oregon giant earthworm
Megomphix hemphilli - Oregon megomphix
Megomphix leutarius - Umatilla megomphix
Monadenia fidelis celeuthia - travelling sideband
Monadenia fidelis minor - Oregon snail (Dalles sideband)
Modadenia sp. nov. - Modoc sideband
Nebria gebleri fragariae - Strawberry Mountains gazelle beetle
Nebria vandykei wyeast - Wyeast's gazelle beetle
Neomura wahkeena - Wahkeena Falls flightless stonefly
Oreohellix strigosa form *delicata* - delicate mountainsnail
Physella columbiana - rotund physa
Physella sp. nov. - Borax Lake physellid snail
Physella sp. nov. - hot spring physa
Pisidium ultramontanum - Oregon pearly mussel
Planorbella oregonensis - Borax Lake ramshorn snail
Plebejus saepiolus insulanus - insular blue butterfly
Prophysaon coeruleum - blue-grey tail-dropper
Prophysaon dubium - papillose tail-dropper
Pterostichus rothi - Roth's blind ground beetle
Pyrgulopsis archimedis - Archimedes pyrg
Pyrgulopsis hendersoni - Harney Lake springsnail
Pyrgulopsis sp. - XL springsnail
Pyrgulopsis sp. nov. - Three Forks pyrg
Speyeria callippe extincta - Willamette callippe butterfly
Speyeria zerene hippolyta - Oregon silverspot butterfly
Vasperiola sierrana - Siskiyou hesperian
Vorticifex neritoides - nerite ramshorn

LIST 2

Fish

- Catostomus occidentalis lacusanserinus* - Goose Lake sucker
Catostomus tahoensis - Tahoe sucker
Cottus pitensis - Pit sculpin
Gila alvordensis - Alvord chub
Gila bicolor eury soma - Sheldon tui chub
Oncorhynchus keta - chum salmon
Oncorhynchus mykiss ssp. - Goose Lake redband trout
Richardsonius egregius - Lahontan redband

Amphibians

- Batrachoseps attenuatus* - California slender salamander
Dicamptodon copei - Cope's giant salamander
Plethodon stormi - Siskiyou Mountains salamander
Rana pipiens - (northern) leopard frog

Reptiles

- Clemmys marmorata marmorata* - northwestern pond turtle

Birds

- Agelaius tricolor* - tricolored blackbird
Bartramia longicauda - upland sandpiper
Bucephala albeola - bufflehead
Centrocercus urophasianus phaios - western sage grouse (northeast populations)
Charadrius alexandrinus nivosus - western snowy plover (interior populations)
Coccyzus americanus - yellow-billed cuckoo
Coturnicops noveboracensis - yellow rail
Egretta thula - snowy egret
Falco columbarius - merlin
Gavia immer - common loon
Histrionicus histrionicus - harlequin duck
Ixobrychus exilis - western least bittern
Larus pipixcan - Franklin's gull
Leucosticte arctoa tephrocotis - Wallowa rosy finch
Oceanodroma furcata - fork-tailed storm-petrel
Pelecanus erythrorhynchos - American white pelican
Pelecanus occidentalis - brown pelican
Podiceps grisegena - red-necked grebe
Tringa melanoleuca - greater yellowlegs

Mammals

- Brachylagus idahoensis* - pygmy rabbit
Canis lupus - gray wolf
Enhydra lutris nereis - southern sea otter
Euderma maculatum - spotted bat
Felis lynx canadensis - North American lynx
Gulo gulo luteus - California wolverine
Martes pennanti pacifica - Pacific fisher
Plecotus townsendii townsendii - Pacific western big-eared bat
Spermophilus elegans nevadensis - Wyoming ground squirrel
Spermophilus washingtoni - Washington ground squirrel
Vulpes macrotis - kit fox

Invertebrates

- Agonum belleri* - Beller's ground beetle
Boloria bellona - eastern meadow fritillary butterfly
Boloria selene tollandensis - silver-bordered fritillary butterfly
Chrysobothris potentillae - potentilla root borer beetle
Cicindela columbica - Columbia River tiger beetle
Derephysia foliacea - foliaceous lace bug
Hebrus buenoi - Bueno's boreostolus hebrus
Incisalia polios obscurus - hoary elfin butterfly
Micracanthia fennica - Harney hot spring shore bug
Nebria gebleri siskiyouensis - Siskiyou gazelle beetle
Nebria gyllenhali lassenensis - Mount Lassen gazelle beetle
Nebria paradisi - Paradise gazelle beetle
Nebria piperi - Piper's gazelle beetle
Ochlodes agricola agricola - rural skipper butterfly
Ochlodes yuma - Yuma skipper butterfly
Polites coras - Peck's skipper butterfly
Polites mardon - Mardon skipper butterfly
Polites mystic - long dash skipper butterfly
Saldula villosa - hairy shore bug
Speyeria zerene bremneri - valley silverspot butterfly
Vanduzeeina californicus borealis - boreal scutellerid

American white pelican (*Pelecanus erythrorhynchos*)
Drawn by Amy Pentschuk

Fish

Catostomus rimiculus ssp. - Jenny Creek sucker
Catostomus snyderi - Klamath largescale sucker
Cottus bairdi ssp. - Malheur mottled sculpin
Cottus marginatus - margined sculpin
Cottus princeps - Klamath Lake sculpin
Cottus tenuis - slender sculpin
Gila bicolor ssp. - Catlow tui chub
Gila bicolor ssp. - Warner Basin tui chub
Gila bicolor oregonensis - Oregon Lakes tui chub
Gila bicolor thalassina - Goose Lake tui chub
Hesperoleucus symmetricus mirulus - California roach
Lampetra tridentata ssp. - Goose Lake lamprey
Oncorhynchus clarki clarki - coastal cutthroat trout,
 Columbia River and coastal runs
Oncorhynchus mykiss gibbsi - inland redband trout
Oncorhynchus mykiss ssp. - Catlow Valley redband trout
Oncorhynchus mykiss ssp. - Jenny Creek redband trout
Oncorhynchus mykiss ssp. - Warner Valley redband trout
Oncorhynchus tshawytscha ssp. - fall chinook salmon, Lower
 Columbia River and south coast runs
Oregonichthys kalawatseti - Umpqua chub
Rhinichthys cataractae ssp. - Millicoma dace
Salvelinus confluentus - bull trout

Amphibians

Ambystoma tigrinum melanostictum - blotched tiger
 salamander
Aneides ferrus - clouded salamander
Aneides flavipunctatus - black salamander
Ascaphus truei - tailed frog
Bufo boreas - western toad
Plethodon elongatus - Del Norte salamander
Plethodon larselli - Larch Mountain salamander
Rana aurora aurora - northern red-legged frog
Rana boylei - foothill yellow-legged frog
Rana cascadae - Cascade frog
Rana pretiosa - spotted frog (east of the Cascades)
Rhyacotriton cascadae - Cascade seep salamander
Rhyacotriton kezeri - Columbia seep salamander
Rhyacotriton variegatus - southern seep salamander
Taricha granulosa mazama - Crater Lake newt

Reptiles

Chrysemys picta - painted turtle
Crotaphytus bicinctores - desert-collared lizard
Lampropeltis getula - common kingsnake
Lampropeltis zonata - California mountain kingsnake
Phrynosoma platyrhinos - desert horned lizard
Sonora semiannulata - western ground snake

Birds

Accipiter gentilis - northern goshawk
Aegolius funereus - boreal owl
Ammodramus savannarum - grasshopper sparrow
Amphispiza bilineata - black-throated sparrow
Archilochus alexandri - black-chinned hummingbird
Athene cunicularia - burrowing owl
Buteo regalis - ferruginous hawk

Buteo swainsoni - Swainson's hawk
Centrocercus urophasianus phaios - western sage grouse
 (southeast populations)
Cypseloides niger - black swift
Dendragapus canadensis - spruce grouse
Dryocopus pileatus - pileated woodpecker (eastern
 populations)
Elanus leucurus - white-tailed kite
Eremophila alpestris strigata - streaked horned lark
Glaucidium gnoma - northern pygmy owl
Gymnorhinus cyanocephala - pinyon jay
Lanius ludovicianus - loggerhead shrike
Leucosticte arctoa atrata - black rosy finch
Melanerpes formicivorus - acorn woodpecker
Melanerpes lewis - Lewis' woodpecker
Picoides albolarvatus - white-headed woodpecker
Pinicola enucleator - pine grosbeak
Poliophtila caerulea - blue-gray gnatcatcher
Poocetes gramineus - vesper sparrow
Progne subis - purple martin
Riparia riparia - bank swallow
Seiurus noveboracensis - northern waterthrush
Selasphorus platycercus - broad-tailed hummingbird
Spizella atrogularis - black-chinned sparrow
Sterna forsteri - Forster's tern
Tringa solitaria - solitary sandpiper

Mammals

Antrozous pallidus pacificus - Pacific pallid bat
Bassariscus astutus - ringtail
Eumetopias jubatus - northern sea lion
Lepus townsendii - white-tailed jackrabbit
Martes americana - pine marten
Phenacomys (=Arborimus) albipes - white-footed vole
Tadarida brasiliensis - Brazilian free-tailed bat

Invertebrates

Acalypta cooleyi - Cooley's acalypta lace bug
Acalypta lillianis - lillianis moss bug
Acneus beeri - Beer's false water penny beetle
Acneus burnelli - Burnell's false water penny beetle
Acupalpus punctatus - no common name
Agapetus denningi - Denning's agapetus caddisfly
Agriades glaudon podarce - Glandon agriades butterfly
Algamorda newcombiana - Newcomb's littorine snail
Anodonta californiensis - California floater
Apatania (=Radema) tavala - Cascades apatanian caddisfly
Atractotomus umbrosus - Umbrose seed bug
Bembidion tigrinum - cryptic beach carabid beetle
Boreostolis americanus - American boreostolis
Cardiastethus borealis - boreal cardiastethus pirate bug
Centrophilus perplexus - cave cricket
Ceraclea vertreesi - Vertree's ceraclea caddisfly
Chloealtis aspasma - Siskiyou chloealtis grasshopper
Chorosoma sp. nov. - western chorosoma
Cincindela hirticollis siuslawensis - Siuslaw sand tiger beetle
Colias occidentalis chrysomelas - western sulphur butterfly
Criocoris saliens - salien plant bug

LIST 3 (Cont.)

Cryptomastix hendersoni - Columbia oregonian
Cryptomastix populi - cottonwood oregonian
Dendrocoris pini - dendrocoris stink bug
Eobrachycentrus gelidae - Mt. Hood brachycentrid caddisfly
Eurychlopterella sp. nov. - Oregon trunk plant bug
Eusattus rectus - ground beetle
Farula davisi - Green Springs Mountain farulan caddisfly
Farula jewetti - Mt. Hood farulan caddisfly
Farula reaperi - Tombstone Prairie farulan caddisfly
Fisherola nuttalli - shortface lanx (=giant Columbian River limpet)
Fluminicola (=Lithoglyphus) columbianus - Columbia pebblesnail (=great Columbia River spire snail)
Fluminicola seminalis - vagrant pebblesnail
Goeracea oregona - sagehen creek goeracean caddisfly
Halticotoma sp. nov. - Oregon halitocoma plant bug
Hemphillia glandulosa glandulosa - warty jumping-slug
Hesperocimex coloradensis - Colorado hesperocimex
Hesperotingis sp. nov. - Klamath Marsh lace bug
Homoplectra schuhi - Schuh's homoplectran caddisfly
Hoplistoscelis heidemanni - Heidemann's nabid
Hydrometra martini - Martin's water-measurer
Hydroporus corvallis - Corvallis diving beetle
Hydropsyche abella - Abellan hydropsyche caddisfly
Kenkia rhynchida - planarian, no common name
Lanx alta - highcap lanx
Lanx patelloides - kneecap lanx
Lepidostoma geodeni - Goeden's lepidostoman caddisfly
Limnephilus atercus - Fort Dick limnephilus caddisfly
Lycaena mariposa ssp. - mariposa copper butterfly
Lyogyrus sp. nov. - Columbia duskysnail
Macrotylus essigi - Essig's macrotylus plant bug
Malezonotus obrieni - Ashlock-Obrien's seed bug
Malthodes glyphidius - cantharid beetle
Mesovelia mulsanti - Mulsant's small water strider
Micracanthia schuhi - Schuh's micracanthia shore bug
Monadenia fidelis beryllica - green sideband
Monadenia fidelis columbiana - Columbia sideband
Nabica propinqua - marsh nabid
Nabica subcoleoptera - black nabica nabid
Nebria jeffreyi - Jeffrey's carabid beetle
Nebria steensensis - Steen's Mountain gazelle beetle

Neominois ridingsii stretchii - Stretch's satyr butterfly
Oarisma garita - Garita skipper butterfly
Ochrotrichia alsea - Alsea ochrotrichian micro caddisfly
Ochrotrichia phenosa - Deschutes ochrotrichian microcaddisfly
Ochrotrichia vertreesi - Vertree's ochrotrichian micro caddisfly
Oligophlebodes mostbento - Tombstone Prairie caddisfly
Orectoderus schuhi - Schuh's orectoderus plant bug
Oreohelix variabilis - Dalles Mountain snail
Ostrea lurida - native oyster
Philocasca oron - Clatsop philocascan caddisfly
Phyciodes pallida barnesi - Barnes' crescent butterfly
Pinalitus solivagus - true fir pinalitus
Platylygus pseudotsugae - Douglas-fir platylyngus
Polymerus castilleja - Indian paintbrush polymerus
Pronotocrepis clavicornis - thick antennaed current bug
Pyrgulopsis intermedia - Crooked Creek springsnail
Rhyacophila colonus - Obrien rhyacophilan caddisfly
Rhyacophila haddocki - Haddock's rhyacophilan caddisfly
Rhyacophila unipunctata - one-spot rhyacophilan caddisfly
Satyrium auretorium - gold-hunter's hairstreak butterfly
Sixeonotus sp. nov. - Oregon sixeonotus plant bug
Speyeria coronis coronis - Coronis fritillary butterfly
Stygobromus hubbsi - Malheur Cave amphipod
Stygobromus oregonensis - Oregon Cave amphipod
Tanypteryx hageni - montane bog dragonfly
Tetracoris paludum - pale teratocoris sedge bug
Tinodes siskiyou - Siskiyou caddisfly
Triodopsis populi - Hell's Canyon land snail
Vespericola columbiana - Columbia Gorge hesperian
Vespericola columbiana depressa - Columbia Gorge hesperian

Northern pygmy owl (*Glaucidium gnoma*)
 Drawn by Jay Miner

Fish

- Lampetra ayresi* - river lamprey
Lampetra lethophaga - Pit-Klamath brook lamprey
Lampetra tridentata - Pacific lamprey

Reptiles

- Contia tenuis* - sharp-tail snake

Birds

- Anser albifrons elgasi* - tule white-fronted goose
Aythya affinis - lesser scaup
Aythya collaris - ring-necked duck
Branta canadensis minima - cackling Canada goose
Branta canadensis occidentalis - dusky Canada goose
Bucephala islandica - Barrow's goldeneye
Catharus fuscenscens - veery
Casmerodias albus - great egret
Chlidonias niger - black tern
Dolichonyx oryzivorus - bobolink
Dumetella carolinensis - gray catbird
Grus canadensis tabida - greater sandhill crane
Numenius americanus - long-billed curlew
Oreortyx picta - mountain quail
Otus flammeolus - flammulated owl
Picoides arcticus - black-backed woodpecker
Picoides tridactylus - three-toed woodpecker
Plegadis chihi - white-faced ibis
Podiceps auritus - horned grebe
Sayornis nigricans - black phoebe
Selasphorus sasin - Allen's hummingbird
Setophaga ruticilla - American redstart
Sialia mexicana - western bluebird
Sitta pygmaea - pigmy nuthatch
Sphyrapicus thyroideus - Williamson's sapsucker
Sterna caspia - Caspian tern
Strix nebulosa - great gray owl

Mammals

- Ovis canadensis californiana* - California bighorn sheep
Ovis canadensis canadensis - Rocky Mt. bighorn sheep
Sorex preblei - Preble's shrew

Invertebrates

- Bythinella hemphilli* - Hemphill's hydrobid
Colias pelidne skinneri - Skinner's sulphur
Cryptochia neosa - Blue Mountains cryptochian caddisfly
Lycaena phlaeas arctodon - beartooth copper butterfly
Nebria labonteii - Labonte's gazelle beetle
Nebria wallowae - Wallowa Mountains gazelle beetle
Neothremma andersoni - Columbia Gorge caddisfly
Pterostichus johnsoni - Johnson's waterfall carabid beetle
Rhyacophila fenderi - Fender's rhyacophilan caddisfly
Scaphinotus hatchi - Hatch's snail-eating carabid beetle

Black tern (*Chlidonias niger*)
 Drawn by Jay Miner

TAXA CONSIDERED BUT REJECTED

Fish

Catostomus microps - Modoc sucker
Catostomus rimiculus ssp. - Jenny Creek sucker
Lampetra richardsoni - western brook lamprey
Oncorhynchus clarki ssp. - Willow/Whitehorse cutthroat trout
Oregonichthys kalawatseti - Umpqua chub
Ptychocheilus umpqua - Umpqua squawfish
Rhinichthys evermanni - Umpqua dace

Amphibians

Ambystoma tigrinum - tiger salamander
Bufo woodhousii - Woodhouse's toad

Reptiles

Coluber constrictor - racer
Gambelia wislizenii - long-nose leopard lizard
Hypsiglena torquata - night snake
Masticophis taeniatus - striped whipsnake
Phrynosoma douglasii - short-horned lizard

Birds

Aegolius acadicus - northern spotted owl
Anthus spinoletta - water pipit
Aphelocoma coerulescens nevadae - Nevada scrub jay
Aphelocoma coerulescens oocleptica - Nicasio scrub jay
Bubulcus ibis - cattle egret
Chaetura vauxi - Vaux's swift
Cerorhinca monocerata - rhinoceros auklet
Charadrius semipalmatus - semipalmated sandpiper
Cygnus buccinator - trumpeter swan
Empidonax alnorum - alder flycatcher
Empidonax minimus - least flycatcher
Falco rusticolus - gyrfalcon
Haematopus bachmani - black oystercatcher
Himantopus mexicanus - black-necked stilt
Parus inornatus zaleptus - Warner Valley titmouse
Phalaenoptilus nuttallii californicus - California dusky poorwill
Ptychoramphus aleuticus - Cassin's auklet
Sialia currucoides - mountain bluebird
Strix varia - barred owl
Stumella neglecta - western meadowlark
Thryomanes bewickii atrestrus - Warner Valley Bewick's wren
Tyto alba - common barn

Mammals

Arborimus longicaudus - red tree vole
Bison bison athabasca - wood bison
Lepus californicus - black-tailed jackrabbit
Mirounga angustirostris - northern elephant seal
Ochotona princeps taylori - Taylor's pika
Perognathus longimembris - little pocket mouse
Sorex merriami - Merriam's shrew
Sorex trigonirostris - Ashland shrew
Thomomys bottae detumidus - Pistol River pocket gopher
Thomomys bottae laticeps - Pacific pocket gopher
Thomomys mazama helleri - Gold Beach pocket gopher
Thomomys mazama hesperus - pocket gopher
Thomomys mazama niger - pocket gopher

Invertebrates

Aegialites californicus - seacliff beetle
Brachyanorpa montanum - mountain scorpionfly
Cryptocercus punctulatus - wood roach
Cychnus rickseckeri - Ricksecker's snail-eating carabid beetle
Dolophilodes oregona - Oregon dolophilodes caddisfly
Haliotis rufescens - red abalone
Lepidostoma fischeri - Fischer's lepidostoman caddisfly
Limnephilusalconura - Klamath limnephilan caddisfly
Trimerotropis helferi - Helfer's trimerotropis

Long-nose leopard lizard (*Gambelia wislizenii*) drawn by Blake F. Hankins

WILDLIFE

Federal Status Changes from Federal Register Vol. 59, No. 219, November 15, 1994.

<i>Arborimus pomo</i>	California red tree vole	C2

SPECIAL PLANTS

This plant list is an update of the 1991 edition of this book. All status changes for specific taxa reflect new information obtained since then. Both the format, definitions and categories of the lists are identical to the previous edition. The main body of the text now an alphabetical listing of all taxa on all the lists. Descriptions of the categories and lists can be found in the Introduction on page two. State distribution is included for all taxa on the Lists in this edition.

At the end of the main list, the various taxa included are listed again by lists. These include a) The USFWS Candidate List with federally listed taxa; b) The ODA Candidate List with state listed taxa; c), List 1; d) List 2; e) List 3; f) List 4; and g) Taxa Considered but Rejected. Details on these lists are included below.

List 1 contains taxa which are endangered or threatened throughout their range or which are presumed extinct. The status of taxa on this list represents its status throughout its range. Species which are extirpated from Oregon are included with an -ex after the List number (1-ex). Taxa known or thought to be extinct throughout their range have an -X following the list number (1-X).

List 2 contains species which are threatened, endangered or possibly extirpated from Oregon, but are more common or stable elsewhere. Taxa extirpated from Oregon are included with an -ex after the List number (2-ex).

List 3 contains species for which more information is needed before status can be determined, but which may be threatened or endangered in Oregon or throughout their range. This is equivalent to the Review List of past editions.

List 4 contains taxa of concern which are not currently threatened or endangered. It includes taxa which are very rare but are currently secure, as well as taxa which are declining in numbers or habitat but are still too common to be proposed as threatened or endangered. This is equivalent to the Watch List of past editions.

Included in the text as Considered but Rejected, are taxa which were included in the 1989 editions, and have been dropped. An entire list of Taxa Considered but Rejected is included as the last List in the plant section. These taxa have been dropped for one of three reasons: 1) they have taxonomic problems serious enough to warrant exclusion from the list (T); 2) they are considered at present to be too common or secure to warrant inclusion on this list (C); or 3) they were originally included on one of the lists because they were suspected to occur in the state, but were dropped because they have never been documented in Oregon (N).

In all of the lists, we have made an effort to include the variety or subspecies which occurs in Oregon. Often this may be the only variety or subspecies from the state, and in the past these may have been included without a subspecific or varietal name. In this edition, these taxa have been included with an asterisk (*) following the scientific name. ONHP is interested in information regarding any occurrences of other subspecies or varieties of these taxa found in Oregon.

ONHP is interested in obtaining and computerizing all location data for taxa on Lists 1 and 2. Manual files are maintained for those on List 3 and 4. It is critical that

additional information be obtained for List 3 taxa so accurate status determinations can be made. Information on status or occurrences of any species included would be appreciated. Distribution information is based on historical and current reports and is included to aid in searches and to increase general knowledge of these taxa.

STATE ENDANGERED PLANT PROTECTION

**Oregon Department of Agriculture
Plant Conservation Biology Program**
Department of Botany and Plant Pathology
Oregon State University, Corvallis, OR 97331
Robert J. Meinke, Program Leader
(503) 737-2317
Thomas N. Kaye, Monitoring Specialist
(503) 737-2346

In 1987, the Oregon Legislature passed Senate Bill 533 (unofficially the "*Oregon Endangered Species Act*") at the urging of the Native Plant Society of Oregon and others in the state's botanical community. This bill, and its accompanying statutes (ORS 564.100-564.135), direct the state Department of Agriculture (ODA) to maintain a strong program to conserve and protect native plant species threatened or endangered with extinction. The Endangered Species Program (now part of the overall Plant Systematics and Conservation Biology Program in ODA's Natural Resources Division) was initiated 1988.

With the exception of ODA's ability to regulate the import, export, and commercial trafficking of threatened and endangered plants (under ORS 564.120), the state's authority concerning these species currently extends only to state-owned or state-leased lands. The statutes do not require private or federal land owners to safeguard species protected by state law, although ODA is ready and willing to work with the owners or managers of these lands in conservation efforts if they request help. There continues to be excellent cooperation with federal agencies concerning the management of the 19 species currently listed as threatened and endangered by the State of Oregon. In addition, ODA collaborates in the study and evaluation of many other candidate and sensitive taxa. These types of studies, focusing on systematics, reproductive biology, and demography (i.e., monitoring research), provide data that support or refute the state listing of candidate and sensitive taxa. Such biologically-based projects are critical for accurate status determinations of many rare species, and have contributed to the current proposal to place approximately 20 additional species to the state threatened and endangered list in the fall of 1993.

ODA has developed administrative rules (OAR 603-73-005 through 603-73-100) that specify procedures pursuant to the listing, reclassification, or delisting of plant species by the state as threatened or endangered; the development of regulations and programs intended to assist and direct state land management agencies in their important roles involving native plant protection; and the initiation of a system of permits for transplanting, scientific study, or collection of threatened or endangered plants. *Any person or organization*

engaging in the collection or study of listed species must register with, and receive a permit from, ODA. If you are interested in reading the latest laws and regulations governing threatened and endangered plant studies and management requirements in Oregon, write to ODA and ask for a copy of the endangered species administrative rules (address requests to the Natural Resources Division, Oregon Department of Agriculture, 635 Capitol Street NE, Salem, OR 97310-0110).

Since 1991, the ODA Plant Conservation Biology Program has developed a joint research agreement with Oregon State University, and much of the ODA program activities are presently based at OSU. With the recent acquisition of the University of Oregon Herbarium, OSU is now the center of taxonomic research in the state. In addition, the newly formed Restoration Ecology and Plant Conservation Biology Cooperative Project (the hub of the OSU/ODA research interaction on campus) provides excellent opportunities for scientists concerned with plant rarity and endangerment issues to work together towards common goals. Anyone interested in learning more about the Cooperative Project or the ODA program in general should contact Bob Meinke at OSU.

A Brief History of Rare Plant Protection in Oregon

by Rhoda M. Love, Past President
Native Plant Society of Oregon (NPSO)

When the Federal Endangered Species Act was passed in 1973, the attention of the nation began to focus on this country's rare and endangered plants. That year, the Smithsonian Institution, in Washington, D.C., was directed by Congress to prepare a list of U.S. plant species thought to be extinct or in danger of extinction. In Oregon, Dr. Kenton L. Chambers of the Oregon State University Herbarium in Corvallis began a list of plants rarely collected in Oregon. At about the same time, Jean L. Siddall of Lake Oswego was preparing a list for the Oregon Natural Area Preserves Advisory Committee, of those plants considered rare by Oregon botanists. Chambers and Siddall soon realized that they were examining the same species and pooled their efforts.

In June, 1975, the U.S. Fish and Wildlife Service published the names of nearly 3,000 rare and endangered United States plants in the Federal Register. At about that time, Jean Siddall set up an Advisory Committee of professional taxonomists, and an office called the Oregon Rare and Endangered Plant Project. The Project drew up this state's first list of rare, threatened and endangered plant species. The list, in booklet form, was published by the Oregon Natural Area Preserves Advisory Committee to the State Land Board in 1979. The authors of the book, *Rare, Threatened and Endangered Vascular Plants in Oregon - An Interim Report*, were Jean L. Siddall, Kenton L. Chambers and David H. Wagner of the University of Oregon Herbarium in Eugene. This 1979 document was the forerunner of the book you now hold in your hand.

Shortly after the appearance of this Interim Report in 1979, the Oregon Natural Heritage Program, an office established by the Oregon Field Office of The Nature Conservancy and the state of Oregon in 1975, began a comprehensive

computerized data base for Oregon rare plant and animal species. This data base is constantly updated as new information on Oregon's rare plants is received. With the cooperation of NPSO, ODFW, the Oregon Natural Heritage Advisory Council, the Rare and Endangered Plant Project, USFWS, and state and federal botanists and zoologists, the *Interim Report* was updated and published in July, 1983 as *Rare, Threatened and Endangered Plants and Animals of Oregon*, by the Oregon Natural Heritage Data Base. Subsequent updates were printed in 1985, 1987, and 1989. These books have become essential resources for any individual or agency carrying out land management activities involving rare plants and animals in the state of Oregon.

Another important publication, *Threatened and Endangered Vascular Plants of Oregon, An Illustrated Guide*, by Robert J. Meinke, then a graduate student at Oregon State University, was published by the USFWS in Portland in 1982. Presently out of print, this volume is nevertheless used and prized by Oregon botanists for its botanical drawings and its thorough coverage of many of Oregon's rarest plants.

By the mid-1980's, NPSO realized that the federal listing process for endangered plants was too slow and cumbersome to adequately protect the approximately 100 plant species on Oregon's rare and endangered list. Therefore, in 1985, this non-profit society of amateur and professional botanists from throughout the state, under its legislative chair Esther McEvoy, began drafting state legislation which would afford protection for Oregon's endangered species. The membership of the Native Plant Society rallied in support of this legislative effort. Following the lead of the society's two tireless lobbyists, Esther McEvoy and Julie Kierstead, and with the help of the Oregon Natural Resources Council and a number of supportive legislators, the effort culminated in 1987 with the passage of Oregon Senate Bill 533, the Oregon Endangered Species Act.

In addition to sponsoring and supporting endangered species legislation, NPSO carries on its own rare plant protection program. Members in 11 chapters across the state monitor rare plants in each area, and report findings to the state R&E chair. This information is then incorporated into ONHP's databases. In addition, each chapter has an active schedule of programs, workshops and field trips. New members are always welcome. For information write to:

Membership Chair, NPSO
2584 NW Savier St.
Portland, OR 97210

Since the passage of the federal Endangered Species Law in 1973, great strides have been made in Oregon to understand and protect our state's rare plants. Starting two decades ago with the visionary efforts of Kenton Chambers and Jean Siddall, hundreds of individuals and organizations have taken part and still take part in this important effort. The book you hold in your hand represents the combined efforts of these Oregonians who have worked together for many years toward one goal -- to save Oregon's beautiful and unique native flora and fauna from extinction.

Scientific Name Common Name	Physiographic Province; Adjacent States Oregon Counties	FWS Status	ODA Status	ONHP List
VASCULAR PLANTS				
<i>Abronia latifolia</i> Eschsch. yellow sandverbena	CR, KM; CA, WA Clat, Coos, Curr, Doug, Lane, Linc, Till	--	--	3
<i>Abronia umbellata</i> Lam. ssp. <i>breviflora</i> (Standl.) Munz * pink sandverbena	CR, KM; CA Coos, Curr, Doug, Lane	C2	LE	1
<i>Adiantum jordanii</i> C. Mueller California maiden-hair	CR, WV, KM; CA Curr, Doug, Jose	--	--	3
<i>Agastache cusickii</i> (Greenm.) Heller Cusick's giant-hyssop	BR; NV Harn	--	--	2
<i>Agoseris elata</i> (Nutt.) Greene tall agoseris	WC, EC; CA, WA Clac, Desc, Hood, Jeff	--	--	2
<i>Agrostis hendersonii</i> A.S. Hitchc. = <i>A. microphylla</i> var. <i>hendersonii</i> Henderson's bentgrass	WV; CA Jack	C2	C	1-e
<i>Agrostis howellii</i> Scribn. Howell's bentgrass	WC Hood, Mult	--	C	1
<i>Agrostis humilis</i> Vasey mountain bentgrass	BM; CA, BC + Clac, Desc, Hood, Jeff	--	--	3
<i>Allenrolfea occidentalis</i> (Wats.) Ktze. iodine bush	BR, OU; CA, ID, NV + Harn, Malh	--	--	2
<i>Allium bisceptrum</i> Wats. two-stemmed onion	BM, BR, OU; CA, ID + Croo, Desc, Gran, Harn, Klam, Lake, Malh	--	--	4

Erigeron oreganus (Oregon daisy) drawn by Julie Kierstead Nelson

Plants Listed as Endangered

Astragalus applegatei
Lomatium bradshawii

Mirabilis macfarlanei

Stephanomeria malheurensis

Plants Listed as Threatened

Sidalcea nelsoniana

Plants Proposed as Endangered

Lilium occidentale

Plants Proposed as Threatened

Howellia aquatilis

C1 Plants

Amsinckia carinata
Arenaria paludicola
Artemisia campestris var. *wormskioldii*
Botrychium pumicola
Castilleja levisecta
Erigeron decumbens var. *decumbens*
Eriogonum chrysops
Hackelia cronquistii

Haplopappus radiatus
Hastingsia bracteosa
Limnanthes floccosa ssp. *pumila*
Lomatium cookii
Lomatium erythrocarpum
Lomatium greenmanii
Luina serpentina

Lupinus aridus ssp. *ashlandensis*
Oenothera wolffii
Plagiobothrys hirtus
Pleuropogon oregonus
Ranunculus reconditus
Senecio erterae
Thelypodium howellii var. *spectabilis*

C2 Plants

Abronia umbellata ssp. *breviflora*
Agrostis microphylla var. *hendersonii*
Antennaria aromatica
Arabis koehleri var. *koehleri*
Arabis serpentinicola
Arabis suffrutescens var. *horizontalis*
Arabis sp. (Curry Co.)
Artemisia ludoviciana ssp. *estesii*
Aster curtus
Aster gormanii
Aster vialis
Astragalus collinus var. *laurentii*
Astragalus diaphanus var. *diurnus*
Astragalus mulfordiae
Astragalus peckii
Astragalus solitarius
Astragalus sterilis
Astragalus tegetarioides
Astragalus tyghensis
Bensoniella oregona
Botrychium ascendens
Botrychium crenulatum
Botrychium pedunculatum
Calochortus coxii
Calochortus greenii
Calochortus howellii
Calochortus indecorus *
Calochortus longebarbatus var. *peckii*
Calochortus umpquaensis
Camassia howellii
Cardamine gemmata
Cardamine pattersonii
Castilleja chlorotica
Castilleja pilosa var. *steenensis*
Collomia mazama

Collomia renacta
Cordylanthus maritimus ssp. *palustris*
Corydalis aquae-gelidae
Delphinium leucophaeum
Delphinium pavonaceum
Erigeron howellii
Eriogonum crosbyae
Eriogonum cusickii
Erythronium elegans
Frasera umpquaensis
Fritillaria gentneri
Gentiana setigera
Gratiola heterosepala
Horkelia hendersonii
Ivesia rhypara var. *rhypara*
Ivesia rhypara var. *shelhyi*
Lepidium davisii
Leptodactylon pungens ssp. *hazeliae*
Lewisia cotyledon var. *purdyi*
Limnanthes floccosa ssp. *bellingermana*
Limnanthes floccosa ssp. *grandiflora*
Lomatium laevigatum
Lomatium suksdorfii
Lupinus biddlei
Lupinus cusickii
Lupinus sulphureus ssp. *kincaidii*
Mentzelia mollis
Mentzelia packardiae
Microseris howellii
Mimulus clivicola
Mimulus hymenophyllus
Mimulus patulus
Mimulus pygmaeus
Mimulus washingtonensis var. *washingtonensis*

Montia howellii
Myosurus minimus ssp. *apus*
Penstemon barrettiae
Penstemon glaucinus
Penstemon peckii
Perideridia erythrorhiza
Phacelia argentea
Plagiobothrys figuratus var. *corallicarpus*
Plagiobothrys lamprocarpus
Poa unilateralis
Ranunculus austro-oreganus
Rorippa columbiae
Saxifraga hitchcockiana
Sedum moranii
Sedum oblanceolatum
Sedum radiatum ssp. *depauperatum*
Senecio hesperius
Sidalcea setosa
Silene douglasii var. *oraria*
Silene spaldingii
Sisyrinchium sarmentosum
Sophora leachiana
Sullivantia oregana
Tauschia howellii
Thelypodium eucosmum
Trifolium leibergii
Trifolium owyheense

* = Candidates which may be extinct

Ranunculus lobbii (C)
Ribes cognatum (C)
Ribes watsonianum (C)
Ribes wolfii (N)
Rimularia insularis (C)
Romanzoffia tracyi (C)
Rubus acaulis (N)
Rubus nivalis (C)
Rudbeckia californica var. *glauca* (C)
Sagittaria latifolia (C)
Salix arctica (C)
Salix bebbiana (C)
Salix cascadenae (N)
Salix fluviatilis (C)
Salix hookeriana (C)
Salix tracyi (T)
Salix vestita (C)
Sanicula tracyi (N)
Sanicula tuberosa (C)
Sarcodes sanguinea (C)
Saxifraga bronchialis var. *vespertina* (C)
Saxifraga caespitosa var. *emarginata* (C)
Saxifraga caespitosa var. *subgemmaifera* (C)
Saxifraga howellii (C)
Saxifraga oppositifolia (C)
Scoliopus hallii (C)
Sedum divergens (C)
Sedum laxum var. *laxum* (C)
Sedum obtusatum ssp. *retusum* (T)
Selaginella douglasii (C)
Sidalcea malvaeflora ssp. *nana* (C)
Sidalcea setosa ssp. *querceta* (T)
Sidalcea setosa (T)
Silene douglasii var. *monantha* (C)
Silene grayi (C)
Silene hookeri ssp. *pulverulenta* (C)
Silene scaposa var. *lobata* (C)
Sisyrinchium californicum (C)
Smelowskia calycina (C)
Sphagnum crispum (T)
Spiranthes porrifolia (C)
Suksdorfia ranunculifolia (C)
Synthyris reniformis var. *cordata* (C)
Tauschia glauca (C)
Thelypteris nevadensis = *Dryopteris oregana* (C)
Tiarella trifoliata var. *laciniata* (T)
Tonella floribunda (C)
Townsendia scapigera (C)
Trifolium howellii (C)
Trifolium plumosum var. *plumosum* (C)
Trillium albidum = *T. chloropetalum* (C)
Trillium rivale (C)
Umbilicaria phaea var. *coccinea* (lichen) (C)
Utricularia intermedia (C)
Vaccinium deliciosum (C)
Vancouveria planipetala (C)
Viola douglasii (C)
Viola hallii (C)
Viola howellii (C)
Viola ocellata (C)
Woodwardia fimbriata (C)
Zauschneria latifolia (C)

ANIMALS:

We are indebted to the many individuals who have contributed their time and knowledge to this effort, not only this year but in preceding years as well. This year our review occurred concurrently with ODFW's review of their sensitive species list, which provided us with an opportunity to pool our knowledge and information about vertebrate species in Oregon. Comments and information provided to ODFW about the status of various vertebrate species were incorporated into our review of the animal species as well, and we are appreciative of these efforts. The review of the invertebrate species was the most extensive to date, and we thank everyone for their contributions in working with this group.

Vertebrates: John Applegarth, Brad Bales, Andrew Blaustein, Dick Bonn, Evelyn Bull, Bruce Bury, Leslie Carraway, Mel Chase, Mark Chilcote, Steve Cross, Kathy Cushman, Ken Durbin, Eric Greenquist, Bill Haight, Marc Hayes, Charles Henry, Dan Holland, Diana Hwang, George Keister, James Kirk, Dave Marshall, Jerry Mires, Martin Nugent, Claire Puchy, Roger Schooes, Robert Storm, Alan St. John, B.J. Verts, Hal Weeks.

Invertebrates: Joseph Furnish, Paul Hammond, Terrence Frest, David Kavanaugh, James LaBonte, Jack Lattin, Jim Wernz, Bob Wissemann.

PLANTS:

Many of the changes made since the last edition of this book in 1991 resulted from comments received at the Rare and Endangered Plant Conference held in Eugene in November, 1992. We thank all conference participants and others who have contributed to this project. Many of the improvements in the information included in this booklet are a result of efforts by the professional botanists of the Oregon Department of Agriculture, the U.S. Forest Service and the Bureau of Land Management, and the amateur and professional botanists of the Native Plant Society of Oregon.

Special thanks go to Kenton Chambers, Professor Emeritus at Oregon State University, who serves as the flowering plant taxonomic arbiter for ONHP and for this publication. David Wagner of the University of Oregon also deserves special recognition for his assistance with this effort.

Information sources and experts for other groups are:

Ferns: Ed Alverson, Frank Lang, and David Wagner.

Liverworts: David Wagner.

Mosses: John Christy and Dan Norris.

Fungi: Joe Ammirati and Jim Trappe.

Lichens: Trevor Goward, Bruce McCune, and Roger Rosentreter.
