

## Washington Status Factors

**Elcode** NFSM000143  
**Gname** RAMARIA CONCOLOR F. MARRII  
**Gcomname**

### Number of Occurrences

A = 1 - 5

**Comments** Known from 1 location (Mt. Baker-Snoqualmie National Forest campground)

### Number of Occurrences with Good Viability

A = No (A- or B- ranked) occurrences with good viability

**Comments** Site is not protected

### Population Size

A = 1-50 individuals

**Comments**

### Range Extent

A = <100 km<sup>2</sup> (less than about 40 square miles)

**Comments** In WA is only known from one locality.

### Area of Occupancy

A = <0.4 km<sup>2</sup> (less than about 100 acres)

LA = <4 km (less than about 2.5 miles)

**Comments**

### Long-term Trend in Population Size, Extent of Occurrence, Area of Occupancy, and/or Number or Condition of Occurrences

U = Unknown. Long-term trend in population, range, area occupied, or number or condition of occurrences unknown

**Comments**

### Short-term Trend in Population Size, Extent of Occurrence, Area of Occupancy, and/or Number or Condition of Occurrences

U = Unknown. Short-term trend in population, range, area occupied, and number and condition of occurrences unknown.

**Comments**

## Threats

A = Substantial, imminent threat. Threat is moderate to severe and imminent for most (> 60%) of the population, occurrences, or area. Ecological community occurrences are directly impacted over a widespread area, either causing irreversible damage or requiring long term recovery

Scope High Severity High Immediacy Moderate

Comments This species occurs in WA in a campground subject to human disturbance.

## Number of Appropriately Protected and Managed Occurrences

A = None. No occurrences appropriately protected and managed

Comments Site is not protected

## Intrinsic Vulnerability

U = Unknown

Comments This species grows on rotten wood.

## Environmental Specificity

B = Narrow. Specialist or community with key requirements common.

Comments

## Other Considerations

**Edition** 11/6/2002 **Edauthor** Efren Cazares

**Grank** S1S2 **Grank Date** 11/6/2002

## Reasons

It is known from one locality in WA
