

Washington Status Factors

Elcode NFSM000011

Gname ASTEROPHORA LYCOPERDOIDES

Gcomname

Number of Occurrences

U = Unknown

Comments

Number of Occurrences with Good Viability

U = Unknown what number of occurrences with good viability

Comments

Population Size

U = Unknown

Comments

Range Extent

U = Unknown

Comments

Area of Occupancy

U = Unknown

LU = Unknown

Comments

Long-term Trend in Population Size, Extent of Occurrence, Area of Occupancy, and/or Number or Condition of Occurrences

U = Unknown. Long-term trend in population, range, area occupied, or number or condition of occurrences unknown

Comments

Short-term Trend in Population Size, Extent of Occurrence, Area of Occupancy, and/or Number or Condition of Occurrences

U = Unknown. Short-term trend in population, range, area occupied, and number and condition of occurrences unknown.

Comments

Threats

G = Slightly threatened. Threats, while recognizable, are of low severity, or affecting only a small portion of the population, occurrences, or area. Ecological community occurrences may be altered in minor parts of range or degree of alteration falls within the natural variation of the type.

Scope Low

Severity Low

Immediacy Low

Comments This species is dependent on a group of mushrooms that are dependent on their mycorrhizal host tree.

Number of Appropriately Protected and Managed Occurrences

U = Unknown whether any occurrences are appropriately protected and managed

Comments

Intrinsic Vulnerability

U = Unknown

Comments

Environmental Specificity

A = Very Narrow. Specialist or community with key requirements scarce.

Comments This species is dependent on a group of *Russula* spp.

Other Considerations

Edition 11/11/2002

Grank S3

Grank Date 11/11/2002

Greasons

This is a small fungus that is easily overlooked. It will only be found on rotting species of *Russula* which are often ignored. It should be found throughout Washington wherever its host mushroom occurs.
